By the Ship Ann, Captain Fortin, from Briſtol, which he left the Fifth of May, we have the following Advices, viz.

From the LONDON GAZETTE.

MUNSTER, April 21.

THIS Moment we hear, that the Caſtle of Arenſberg was taken the 19th at 2 o'Clock in the Afternoon. The following is the Account we have received of what paſſed on that Occaſion. Our Batteries were finiſhed and mounted on the 18th Inſt. at 11 o'Clock in the Forenoon; upon which the French Commandant, M. Muret, offered to capitulate, on Condition to march out of the Place on the 21ſt, with all the Military Honours, in caſe he was not relieved during that Interval of Time. As it was known that the French Troops were in Motion, this Delay could not be granted him on the Part of his Serene Highneſs.---The Night between the 18th and 19th every thing was quiet on both Sides; but on the 19th, at 6 o'Clock in the Morning, our Batteries began to play. At 9 o'Clock, before any Part of the Place was ſet on Fire, the Hereditary Prince ordered an Offer to be made to the Commandant, to march out with all the Military Honours, and two Pieces of Cannon; but M. Muret having haughtily declined this, we began to redouble our Fire; and about Noon the Caſtle was in Flames, and the Town likewiſe, which increaſed in a ſhort Time to that Degree, that M. Muret cried out for Mercy; and getting over the Walls of the Caſtle with his Garriſon, ſurrendered at Diſcretion, to the Number of 9 Officers, and 231 private Men, and 26 Pieces of Cannon. The Enemy had not one ſingle Man killed, nor we neither; but a Captain of the Britiſh Legion has had his Legs ſhot off.

Duſſeldorp, April 19. The 16th the French threw a Bridge of Boats over the Rhine oppoſite Deutz; and Yeſterday Morning early the three Regiments in Garriſon at Cologn, making 9 Battalions, croſſed the Bridge, to march towards the Dutchy of Berg; but the Colours, with ſome Picquets, remain at Cologn. The Order that came to thoſe troops to march in the Night between the 17th and 18th, was followed the 18th in the Afternoon, by an Order to ſend away their Tents and Baggage.

As the nine Battalions are but weak, and have left ſome Piquets, what are marched, do not form much above five complete Battalions. The Deſertion is very great.

Hamburgh, April 20. We have received Advice, that a Ceſſation of Arms, for two Months, was ſigned the 7th Inſtant at Ribnitz, in the Dutchy of Mecklenburgh Schwerin, by the Prince of Wurtemberg on the Part of his Pruſſian Majeſty, and by Lieut. Gen. Ehrenſchwerdt on that of the King of Sweden. A ſeparate Convention was likewiſe agreed upon the ſame Day at Ribnitz, for the free Intercourſe of Commerce, both by Sea and Land, which was ſigned by the Pruſſian Lieutenant-Colonel L'Homme de Courbierre, and by the Swediſh Adjutant-General de Grevenhagen, and the firſt Auditor Fiſcher.

The Daniſh Army keeps the ſame Poſition near Lubeck; and the Head-Quarters are ſtill at Morie.

Hague, April 25. The French Troops along the Rhine, have been for ſome Days paſt in Alarm, upon an Excurſion made by the Hereditary Prince of Brunſwick, the Detail of which is not yet come in: We are informed, however, in the mean while, that his Serene Highneſs had attacked the Caſtle of Arenſberg on the 19th; after ſome Firing, he offered the Honours of War to Muret, the Commanding Officer, and his Garriſon, which he refuſed; and the Firing being renewed, he was in a few Hours afterwards obliged to ſurrender at Diſcretion. The French looked upon this Poſt as very important for their Communication between Weſel and Duſſeldorp; and the Loſs of it will be very inconvenient to them, whilſt they are preparing to open the Campaign.

Conſtantinople, March 5. His Excellency Henry Grenville, Eſq; Ambaſſador from the King of Great-Britain to the Ottoman Porte, arrived here, on board his Majeſty's Ship the Dunkirk, Captain Digby, from Liſbon, on the 21ſt paſt, and will ſoon have his Audience of the Grand Seignior.

Hague, April 16. The Light Troops of his Majeſty's Army in Weſtphalia have been lately very ſucceſsful in ſeveral Skirmiſhes with the Enemy. The Hereditary Prince of Brunſwick was marching from Munſter, as we hear by the laſt Letters, upon ſome Expedition.

The French are in continual Motion in Heſſe, and have thrown ſome Bridges over the Werra, between Heidemunden and Witzenhauſen; but their Motions ſeemed to be rather of the defenſive than of the offenſive Kind.

Kiel, April 13. His Imperial Majeſty, being deſirous to put the Dutchy of Holſtein in a good ſtate of Defence, has ordered the Enrolment for the Augmentation of our Troops to be continued. They are to conſiſt of 6 Regiments of Horſe, and 7 of Infantry, beſides which, it is aſſured, that 5000 Men, raiſed at Peterſburgh, will join them as ſoon as the Seaſon will permit. The Levy of Recruits making here, goes on without the leaſt Violence, but no Daniſh Deſerters are admitted.

Berlin, April 13. We are aſſured that the King has ordered all his Generals to avoid the ſkirmiſhing War as much as poſſible, and to ſend out no more Parties without great Neceſſity; as ſuch frequent Rencounters carry off Abundance of Men, and anſwer no End.

This makes 143,000 Men at the Diſpoſal of the Court of Vienna, which will be augmented by ſome new Corps furniſhed by Hungary, and the Hereditary Countries belonging to the Houſe of Auſtria, which will ſerve to ſupply the Loſſes which are the inſeparable Conſequences of every Campaign. The Pruſſian Forces conſiſt in all of 142,000 Men.

Cadiz, April 1. We have juſt received Advice, that the Court of Liſbon has at length given a definitive Anſwer to that of Madrid. LONDON, April 20.

Yeſterday there was an Expreſs from the Lord Lieutenant of Ireland, which, we are well aſſured, brings Advice, that the Rioters there are quite diſperſed, that near 100 of them were taken, and the Whole afraid of each other; that thoſe who aſſumed any Command amongſt them, will be immediately tried, and, if proved guilty, be executed; and the others diſpoſed of in ſuch Manner as will beſt ſecure the Tranquility of that Kingdom.

A ſpecial Commiſſion is abſolutely gone to Dublin for the Trials of the Rioters, among whom are a Franciſcan Friar, and ſix or ſeven Prieſts.

The Emiſſaries and Tools of the French and Spaniards, are very aſſiduous in aſſerting that they intended an Invaſion of ſome Part of his Majeſty's Dominions; this ſeems to be only like the laſt Efforts of a deſperate Gameſter; but that they will ever be able to effect it, ſeems highly improbable. The French have no more than 9 Ships of the Line, and two Frigates at Rochfort, which are watched by Lord Howe, and as they have no other Fleets to cover an Embarkation, their flat-bottomed Boats without one would only come to certain Deſtruction. The greateſt Danger ſeems from the Spaniards; but when it is conſidered that by their own Accounts they have only 10 or 11 Men of War at Ferrol, and thoſe not well manned, that Force is but trifling, compared with our own in the Channel. And Admiral Saunders will doubtleſs look after thoſe at Cadiz, where is ſaid to be their chief Force in Europe, and prevent any others from joining them at any diſtant Ports.

We are aſſured, that his Majeſty has received very agreeable News from the Court of Denmark, and that, in all Probability, his good Offices will prevent a Rupture between that Court and Ruſſia; in Conſequence of which, we may hope for a ſpeedy Peace in Germany, as it will be Madneſs in the Empreſs Queen to attempt to carry on the War againſt the King of Pruſſia, now he has got 70,000 Men extraordinary to join that Army which alone kept all her Troops at Bay laſt Campaign.

April 22. The Amſterdam Gazette informs us, that all the Officers of the Neapolitan Troops were ordered to join their Troops in three Days, on Pain of being caſhiered; that ſeveral Regiments were to be ſent to Sicily; and that the Batteries erected to defend the Coaſts of Naples are finiſhed, and planted with Cannon.

Private Letters from Liſbon adviſe, that the King of Portugal has 10 Sail of Men of War of the Line in the Tagus, and 40,000 Men marching towards the Frontiers of Spain; notwithſtanding which, a general Opinion prevailed that a Neutrality would ſoon take Place between the Spaniards and Portugueſe.

The Troops deſigned for Portugal are in Readineſs for Embarkation, from which Time they are to be paid by the King of Portugal, after the ſame Rate as the Engliſh Eſtabliſhment.

According to ſome Accounts from Spain, the Land Forces of that Monarchy amounted to 80,000 Men at the preſent King's Acceſſion to the Throne, but now conſiſt of 140,000.

Sterling) which Money will be paid again by Denmark to the Emperor of Ruſſia, who is willing to give up his Claim to Holſtein in Conſideration of a certain Sum of Money, the Remainder of which is to be paid at the Terms ſettled in the Treaty now on the Carpet.

Other Letters inform us, that a Treaty of Peace between Ruſſia and Pruſſia is at length actually ſigned; that Denmark hath nothing further to apprehend, ſince the Ruſſian Troops had received Orders to march back immediately againſt the Coronation, at which Time there were Fears of ſome Diſturbances ariſing.

The States of Holland were ſummoned to meet this Week. The principal Objects of their Deliberations were expected to be the Differences between the Engliſh and Dutch Eaſt-India Companies, and the Equipment of the 20 Ships of the Line, which proceeds very ſlowly.

The Spaniſh Miniſtry are apprehenſive the French Fleet are blocked up in ſome Port in America, and the French themſelves have no Intelligence of their Squadron ſince it ſailed from Breſt.

If the Report be true, that the French have demanded and inſiſted upon it, that the Dutch ſhall depart from their Neutrality, and declare either for them or us, we may be able to gueſs how they will determine, by the previous Steps they ſhall take; if they intend to declare for England, they will increaſe the Land Forces; if for France, they will augment their Marine.

Yeſterday a Number of eight and twelve Inch Mortars, Cohorns, Handſpikes, and divers other Sorts of military Implements, were put on board Barges at the Tower Wharff, which fell down with the Afternoon Tide, to ſhip the ſame on board the Tranſport Veſſels that are under ſailing Orders for Gibraltar.

We hear that by the Treaty lately concluded between our Court and Portugal, the Troops which are going, from hence, for the Defence of that Kingdom, are to remain in the Pay of his Portugueſe Majeſty for three Years, certain.

Extract of a Letter from Waterford, April 8.

"Last Night 58 Marines made their Escape out of an armed Ship at Passage; this was done about 8 o'Clock in the Evening. They broke open the Arms-Chest, and took out Cutlasses and Pistols, and have made their Way towards Carrick. They were seen early this Morning, headed by a desperate White Boy, who was inlisted as a Marine, and deserted. A Party of the Army went immediately in Pursuit of them. Ten of the White Boys were sent here Yesterday Morning, properly guarded, two of whom had Commissions in their Pockets when taken, but cannot learn by whom they were signed. Their Regimentals were White, faced with Red and Blue."

Extract of a Letter from a Gentleman at Lisbon, dated April 28, 1762.

——"The Spaniards Behaviour to this Country, which must now become a Principal in the War, and the Demands made by France and Spain upon this Court, not being submitted to, their Ambassadors are therefore retired; and we expect daily that War will be declared, and Hostilities begin upon the Frontiers, where the Portuguese have collected 40,000 Men for their Defence; to help them wherein the English must of Course be at the Expence of lending their Assistance; to which End a Body of Forces is soon expected from England and Ireland. As the Cause is so just, we may venture to place our Confidence in the Protection of Heaven, and to flatter ourselves that our Enemies will be baffled in their iniquitous Schemes.——It is a disagreeable Circumstance to be situated so near a Seat of War; but there is no Remedy but to submit patiently to our Fate, and to hope that as few bad Consequences as possible will result from it. Under all Circumstances and Situations, I shall ever remain, with much Truth," &c.——

Sooms, in whom the above Letter came, left Lisbon the fourth of May, and informs, that six Sail of Transports, with British Troops on board, were already arrived there, and that others were daily expected:——That it was reported Admiral Saunders, with his Fleet, had blocked up the Port of Cadiz, and that they expected soon to hear he was in Possession of that Place.

On Thursday last an elegant Entertainment was prepared in the State-House, by a Number of the principal Gentlemen of this City, in order to bid Adieu to, and take their final Farewel of, ABRAHAM TAYLOR, Esq; late one of the Council, an Alderman of the City, and Deputy Collector of the Customs in this Port, now going to reside in England. Upwards of One Hundred Gentlemen attended Mr. TAYLOR on this Occasion, and the greatest Pleasure appeared in every Countenance. Towards the Close of this very agreeable Entertainment, Mr. TAYLOR was addressed by one of the Company, in the Name of the whole, and Thanks returned him for his faithful and upright Discharge of the several Offices he had the Honour to fill, during a Residence of upwards of Thirty Years among us; and for his kind, prudent, blameless and affectionate Behaviour, as a Friend, Fellow-citizen and Companion; and the best and most cordial Wishes of the whole Company attended him, for his safe Passage to, and future Health and Happiness in, his native Land. Mr. TAYLOR then took the most decent and affectionate Farewel of the Company, wished them, and the whole Province, all possible Blessings, Happiness and Prosperity. The Entertainment closed in the Evening with great Harmony, becoming good Citizens parting with a most worthy Member.

From Charles-Town, in South-Carolina, we learn, that Captain Oliver, in a Privateer belonging to Providence, brought Advice, that the Richmond Frigate, with all the Bahamian Pilots on board, that were carried to Jamaica by the Bonetta, had been reconnoitring and surveying the Old Straits of Bahama, and the whole Track, quite to the Havannah, and was returned to join Sir George Pocock, on the Coast of Hispaniola, where a prodigious Armament was assembling: That all the Shipping in Cuba were embargoed: And that there was Reason to believe an Embargoe was likewise laid on all the Ports of Hispaniola about the Middle of May.

From Barbados there is Advice, that the Renown, Captain Nelson, from Liverpool, had arrived at that Island, and carried in with him a French Snow, from Bourdeaux for the Cape, laden with Wine and Bale Goods.

Captain Tucker, from South-Carolina, off of the Capes of Virginia, met with a Sloop that had sunk, but could not discover to what Port she belonged.

Captain Dewer, from Jamaica, arrived here on Tuesday last---Seventeen Days before his Arrival, he spoke with the Portmahon Man of War, Captain Kingsman, off of Cape-Nichola, who informed him, that Admiral Pocock, with 33 Sail of the Line, and about 170 Transports, had then been some Time before the Havannah.

Saturday last arrived here the Britannia Privateer, Captain M'Pherson, from a Cruise, and brought up with him two Prize Sloops, laden with Sugar, Coffee and Indigo, bound to St. Eustatius and Coracoa, from Hispaniola---They are supposed to be valuable Vessels.

Captain M'Pherson was informed of the following Particulars, relating to the Engagement he had lately with a very large Spanish Ship, off of Laguira, by a Vessel that was there when the Spaniard arrived, viz. That she was from Spain, said to be very rich, and mounted 24 Nine-poundets: That 16 of her Men were killed in the Action: That her Captain lost his Right-arm: That many others lost their Legs and Arms: And that as the Ship had had a very narrow Escape, Twenty Masses had been said on the Occasion.

Captain Fortin, from Bristol, sailed under Convoy of His Majesty's Ship Loo, of 32 Guns, Taylor Penny, Esq; Commander, in Company with 19 Sail of other Merchantmen, for different Ports; among which were Capt. Cleague for this Port; Taylor and Lewis for New-York; Kennedy and Davis for Boston; and Dixon and Watkins for Virginia. On the 12th ult. the Loo gave Chace to, came up with, and after a short Engagement took, the Jupiter Privateer of Bayonne, of 22 Guns, out 14 Days, but had taken nothing. The Captain of the Privateer informed Captain Penny, that having Notice of the Time the Bristol Fleet intended to sail, he and six others (one of which mounted 32 Guns) sailed to intercept them, and being in great Hopes of Success, were provided with Men and spare Officers, of which the Jupiter had four Captains, ten Lieutenants, and many Cadets on board.---This Privateer has been very successful, having taken, it is said, 63 Prizes this War; and had been often chased by our Men of War, but being a remarkable fast Sailer, always escaped.

On the 14th of May Captain Penny spoke with a Vessel from Lisbon for Cork, the Master of which informed him, that the Spanish Ambassador had left the Court of Portugal; that War was expected daily to be declared betwixt the two Courts; and that the Ferrol Fleet had sailed.

RUN away from the Subſcriber, living in Baltimore County, Maryland, on the 14th Day of this Inſtant June, a Country-born Negroeman, named Shadwell, he has run away ſeveral Times before, has been in Carliſle and York Goals, and in Frederick County Goal, in Maryland. He always Changes his Name, and denies his Maſter, and wants to paſs for a Free-man; he is a well made Fellow, about 40 Years of Age, about 5 Feet 5 or 6 Inches high; he is bald upon the Head, has loſt his upper Fore-Teeth, has a Scar upon one of his Eye-lids, knows a great many People both in Ann Arundel County and Baltimore, and in Frederick County, in Maryland, and alſo in the Back Parts of Pennſylvania: Had on, when he went away, an Iron Collar about his Neck, and a Pair of Iron Fetters double riveted; it is likely he has got them off, as he has done ſeveral Times; he had likewiſe on, a Cotton Jacket, with a Piece of ſtriped Linſey-woolſey put upon the Back of it, a Pair of new coarſe Trowſers, a coarſe Shirt; it is likely he will Change his Cloaths, as he is Rogue enough to ſteal any that he comes acroſs; it is ſuppoſed he will make for the back Parts of Pennſylvania, or for the Ohio; he was taken up laſt Year 30 Miles above Carliſle. Whoever apprehends the ſaid Negroe Man, and brings him Home, ſhall have Forty Shillings Reward, if taken in this County, if out of the County Three Pounds, and if out of the Province, Five Pounds; or if ſecured in any Goal, out of the Province, Forty Shillings, paid by THOMAS COCKEY.

N. B. He can walk upon his Hands with his Feet up in the Air. ‡ 6 W.

JUST landed, A ſelect Parcel of SAWS, of all Denominations, and a Variety of other Tools, peculiar to Carpenters, Joiners and Coopers, which, on the Whole, makes a very large Aſſortment; and as I have had long Experience of what is neceſſary for the above Artiſts, I will confine myſelf to them only, with all the Care I can, and ſell off a Variety of other Hard-ware and cutlery, &c. on the loweſt Terms, either for Caſh or ſhort Credit; and be it known to them who have enquired for the beſt PIT-SAWS, ſuch as I had formerly, that they are now come to Hand, with the Addition of ſix Inches, which makes them ſeven Feet and a Half; alſo a large Parcel of Turkey Oil Stones, and a neat Aſſortment of birding and fowling Pieces, and a valuable Riſle Gun; and all Sorts of Planes made as formerly, the third Houſe turning up from Church-alley, in Third-ſtreet, by SAMUEL CARRUTHERS. †

THE Subſcriber hereof deſires, that all Letters that may be directed to him, from any of his Correſpondents, may be ſent by Poſt, and not to Nathaniel Parker's; as that Gentleman, on the 21ſt of this inſt. June, was ſo unkind as to throw a Letter of Conſequence, directed to me, in the high Road: Being informed of it, ſent a Man to enquire, and he found it nailed to his Sign-poſt. I am ſorry to be under Neceſſity of publiſhing ſo ungenerous an Action, but as I may be greatly damaged by the Miſcarriage of Letters, obliges me to have Recourſe to the Poſt. ¶ EDWARD BROADFIELD.

To be SOLD,

A LIKELY NEGROE BOY. Enquire of Thomas Rodgers, in Coats's Alley.

Ratiſbon, April 12. The Emperor has ſent a Reſcript to his Miniſters here, the Deſign of which is to exhort the well-intentioned States of the Empire, not to be diſcouraged by any Change of Syſtem which the Death of the Czarina may occaſion in Ruſſia, but to adhere ſtedfaſtly to the good Cauſe, as there is the beſt Ground to hope that new Conqueſts will be added this Campaign to thoſe already made.

Cork, April 15. Laſt Monday Matthew Parker, Eſq; and a Party of the Youghall Militia, took a notorious Leveller, who had atteſted the greateſt Part of the Pariſh of Ardagh in the Service of Queen Sive.

Cork, April 22. Laſt Thurſday were committed to the County Goal, Francis Stackpole (on ſearching him was found a long Liſt of Names, and it is ſaid he has made ſome uſeful Diſcoveries) Matthew Roach, Thomas Fitzgerald, and William Carter, who are charged on Oath with aiding and aſſiſting the People called White Boys. At the ſame Time was committed Edmond Dingine, charged with treaſonable Practices againſt his Majeſty. Friday were committed, John Corbett, John Ryan, and James Dennahy, charged with rebellious Practices. This Morning were committed, James Dent, Lieut. Colonel of the White Boys, William Sheehan, Treaſurer, Patrick Prendergaſt, Patrick Murphy, Richard Kent, Richard Caſey, Darby Mahony, and John Day, who were all concerned in rebellious Practices in this County; they are Part of the Number who were confined in the Barracks of Youghall.

Dublin, April 20. Friday Morning laſt the Regiment of Dragoons, commanded by the Marquis of Lorn (now on Duty) was drawn out in the Barrack-Yard, in order to be draughted, to fill up the Cavalry in Germany, when there were ſuch Numbers of Volunteers vying with each other, who ſhould have Leave to go, that after the Commanding Officer had granted Liberty to ſuch as he thought proper, the reſt could hardly be conſtrained to return to their Ranks, looking upon it as an Indignity to be obliged to ſtay behind.

L O N D O N,

April 17. They write from Cleves, that the French Troops complain extremely of the ſcanty and uncertain Remittances that were made them; and many of the Officers, tho' extremely diſpleaſed with the Exceſſes committed by ſome of the Troops, nevertheleſs declined puniſhing them, as knowing they proceeded from Neceſſity.

We learn by ſome of the French Officers, ſays a Letter from Taviſtock, dated April 11, that the French King had conferred the greateſt Marks of Honour, beſides a handſome Penſion, upon Count d'Eſtaigne, for his gallant Behaviour in the Eaſt-Indies, though he broke his Parole; that they are terribly chagrined at the Loſs of Martinico; but we are in great Expectations from what the Spaniards will do, who are meditating ſome mighty Blow.

According to a private Letter from Martinico, there are at preſent upwards of 40 Sail of Britiſh Men of War of the Line, beſides Frigates; and 20,000 Veteran Troops in the Weſt-Indies: A Force more than ſufficient to make all America tremble!

New Cloathing is going to be ſent over for the Uſe of the Britiſh Troops in Germany, with a double Sett of Shoes, Stockings and Linen, upon the Repreſentation of the Marquis of Granby; and the Forces there are, for the future, to wear a Cartouch Box before them, inſtead of having it hung by a Croſs-belt.

The Succeſs Man of War, of 24 Guns, is put into Commiſſion, and the Command given to Capt. Botterell, who brought over the News of the taking of Martinico.

We hear a large Sum of Money will ſpeedily be coined at the Tower, in Pieces of 5s. 3d. Value, which will be of great Service in Trade, as Silver is lately become very ſcarce.

Extract of a Letter from Paris, April 5.

"If the Declaration made by the King in Anſwer to that of the Court of Peterſburgh has no Effect, it is thought that the Baron de Breteuil, our Embaſſador there, will be ordered to retire without taking Leave, as he hath not hitherto been able to obtain an Audience of the Emperor.

"On the 1ſt Inſt. the Jeſuit Teachers were removed from their Colleges in the Juriſdiction of the Parliament of Paris, which extends over a great Part of the Kingdom. The ſame Day new Profeſſors were inſtalled in their Room. This Blow to the Society was the more humbling, as the Parliament was backed in it by the King. In Conſequence of it, all the Chineſe, whom the Society educated through Oſtentation; all the Armenians whom they were paid for inſtructing, out of a Fund appropriated for that Purpoſe by Lewis XIV. in ſhort, all the young Noblemen and Gentlemen of Fortune, whom they had gained by Seduction, walked out of the public Schools, amidſt the Acclamations of a Multitude of People aſſembled on this Occaſion."

April 20. Yeſterday Sir Edward Hawke ſet out for Portſmouth, to take on him the Command of the Expedition Fleet at Spithead. As to his Royal Highneſs the Duke of York's going out with the Admiral, as mentioned in ſome of the Papers, we apprehend it muſt be a Miſtake, as, by the Laws of theſe Realms, the Heir apparent to the Crown cannot go out of the Kingdom on any ſuch Enterprize; which accounts for His Royal Highneſs's not going to Sea ſince the Deceaſe of his late Majeſty.

Saturday a very large Quantity of Lead Shot was exported for Jamaica, Quebec, Maryland, &c.

Meſſrs. Maſon and Dixon, ſent out by the Royal Society to obſerve the late Tranſit of Venus over the Sun, are returned from the Cape of Good Hope, and have brought with them a moſt circumſtantial, excellent, and ſatisfactory Obſervation, for which they have received the Thanks of that learned Body.

When the laſt Letters came from Holland, the Friends of France had ſpread a Report, that Advice was received by ſome Merchants of Rotterdam, that the combined Fleets of France and Spain had fallen in with, and defeated Admiral Rodney; but the Report gained little Credit.

One of the Men of War in the Fleet for India, took a French Eaſt-Indiaman homeward bound. The Groſvenor parted with the Phœnix, Capt. M'Gagg, on the 26th, off Porto Santo, all well, bound for the Coaſt of Africa. Sir George Pocock put her under Convoy of the Groſvenor.

By Letters from France, there is Advice of a Duel being fought between the Count de Broglio and the Prince de Soubiſe, wherein the latter was run into the Side; and it was feared the Wound would be attended with bad Conſequences.

April 22. The Repreſentations made by the Spaniſh Grandees, in Reſpect to the Blockade or Siege of Gibraltar, have been fully verified; inſomuch, that if the Court perſiſts in that Meaſure, they muſt be obliged to have a Corps of auxiliary Troops, Generals and Engineers, from France.

The Bruſſels Gazette ſays, the Troops which the French King is ſending to Spain amount to ſeventy Thouſand. But a Liſt which is ſubjoined of the Number of Battalions makes them to be thirteen only; and a French Battalion ſeldom exceeds 500 Men: Seventy Thouſand muſt therefore be a Miſtake for ſeven Thouſand.

The King of Pruſſia Privateer, belonging to Guernſey, who lately took a French Prize from St. Domingo, laden with Sugar and Coffee; alſo retook a Brig from America with Logwood, Rum, &c. carried only two ſmall Carriage Guns, four Swivels, and 22 Men; ſo that the Prizes will turn out to a very good Account among the Captors, as the Number is ſo ſmall.

April 27. An Expreſs of great Conſequence is ſaid to be arrived from General Lord Tyrawly; the Particulars of which are not mentioned.

The Head-Quarters of the Allies are ſtill at Hildeſheim: Nor will they be removed from that Place till Prince Ferdinand ſhall ſee more clearly into the Deſigns of the French.

According to ſome Advices from Francfort on the Main, the French are making Military Preparations; notwithſtanding which it was believed, that the Army upon the Upper Rhine would ſcarce be formed till they ſee what Turn the Negotiations will take, that are certainly carrying on at Breſlau.

A Letter from Portſmouth ſays, that all the Ships there are ordered to be got ready for Sea immediately, and not to wait for docking.

His Majeſty has been pleaſed to make a Preſent of a large Quantity of Linen to the London Hoſpital.

We hear from Fort Auguſtus in Scotland, that, the Week before laſt, a Soldier's Wife, on her Way from Bernera to that Place, wandered into a Bog, where ſhe periſhed with cold. She had with her an Infant, to preſerve which, when unable to proceed further, ſhe wrapt it in her Gown cloſe to her Back, and extended herſelf on the Ground, her Face downward. In this Situation ſhe was found about 18 Hours afterwards dead, but the Child was taken up alive and well.

April 29. It is ſaid at preſent that the Parliament will be prorogued to Thurſday the 13th of May.

On Monday laſt Mr. Hill, who for many Years has been a Ship-builder in the Spaniſh Service, returned to his Houſe at Deptford from Spain; and it is ſaid ſeveral other Engliſh Ship-carpenters have left that Country, and are likewiſe coming over.

It is remarkable, that the Court of Vienna hath not publiſhed any Anſwer to the Declaration of the New Czar. Mean while, the Sentiments of that Court on the Subject of it, will authentically appear from the following Letter from Count Caunitz, High Chancellor, dated March 3, 1762, to the Auſtrian Miniſters at the different Courts of Europe.

"As ſoon as an Account was received of the Death of the Empreſs of Ruſſia, I did not fail to acquaint you, that our Court promiſed themſelves, that his Imperial Czariſh Majeſty would ſcrupulouſly fulfil the ſolemn Treaties which ſubſiſt between the two Powers, and would proſecute the War with Vigour againſt the common Enemy.

"Since that Time, Advices from Peterſburgh, and other Parts, give us ſufficiently to underſtand, that the Imperial Court of Ruſſia doth not deſign to follow the antient Syſtem of State, and that they are even on the Point of concluding a Suſpenſion of Arms, and perhaps of making a ſeparate Peace with the King of Pruſſia, and conſequently of withdrawing the Troops that have hitherto ſerved with ours in Sileſia.

"Whatever may happen, our Court will not be diſcouraged, and will never take any Step that may be contrary to their Honour, their Security, and Safety. They wait with the moſt perfect Tranquility the certain News of this Change, and will proſecute the Preparations for War with all poſſible Activity."

The following is ſaid to be an intercepted Letter from M. DE LA TOUCHE, Governor of MARTINICO, to the Secretary of State at PARIS.

SIR, Martinico, Jan. 18, 1762.

"Doubtleſs your Alarms are great for Martinico, occaſioned by the arrogant Engliſh Nation---But on our Side you may reſt ſatisfied, we've a ſufficient Power to repulſe theirs, notwithſtanding Admiral Rodney is arrived with a Squadron to aſſiſt one of the American HEROES, who, with 30,000 Men, thinks to make us as eaſy a Prey as they did the undiſciplined Savage Canadians. The Arrogance of theſe Invaders is raiſed to ſuch a Pitch of Vanity, by a few trivial Acquiſitions, that I firmly believe they think it ſufficient to appear before a Place, without ſtriking a Blow; that their Preſence alone will make us call for a Capitulation. Depend upon it, Sir, we will acquit ourſelves to the Honour of France, and to the no ſmall Diſappointment of the Enemy. Let the Attack be ever ſo ſevere, both by Land and Sea, Fort-Royal will render their deepeſt Projects abortive: And ſhould the Breſt Fleet make a happy Junction with that of Spain, and ſafely appear here, it will be a Coup de Grace to their naval Preſumption. We have now 40,000 effective Men, [4000 we ſuppoſe] beſides the Mariners from Privateers, amounting to 3000, which I have deſtined for the Defence of the Forts. The Gentlemen Inhabitants are reſolved to die or ſave their Iſle, having no Inclination to truſt to the Clemency of Ravagers to divide their Plantations. All are loyally attached to our Great Monarch and the Iſle, and be aſſured from me, our Defence will add Luſtre to our Flag. In a ſhort Time I hope to return you a large Freight of Priſoners, with freſh Aſſurances of my Friendſhip and Eſteem, and a particular Detail of our Succeſſes.

I am, Sir, with all Reſpect,
Your very obedient,
LE VASSOR DE LA TOUCHE."

Extract of a Letter from St. Boniface, in the Iſland of Corſica, to a Gentleman in Town, dated March 27.

"The different Reports which the Genoeſe have with great Pains ſo induſtriouſly propagated throughout Europe, of the Feuds that they have kindled amongſt the Malecontents in the Iſland; and that Paoli the Chief was reduced to great Difficulties and Diſtreſs, by the different Pieves, who were once his faſt Friends, are entirely groundleſs. Matters are ſo far otherwiſe, that the greateſt Harmony ſubſiſts amongſt them, and the Genoeſe are much ſtraitened in the few ſtrong Holds they ſtill retain on the Iſland. Their Cruiſers alſo do them very great Harm, by cutting off their Reinforcements of Proviſions, &c. ſeveral of the Barks, laden with Neceſſaries for the Uſe of their Garriſons, having been taken by them, and brought into this Fort. A few French Officers arrived here ſome Time ago in a Genoeſe Tranſport, and landed at Baſtia, where they gave out they were to be followed by a great Number of French Troops, who were to aſſiſt the Genoeſe in the Reduction of the Iſland. But we have the Pleaſure now of knowing this was a falſe Report, and entirely calculated to alarm us, ſo that we ſtill remain in high Spirits, and have not the leaſt Doubt but we ſhall be able to maintain our Ground."

An Account of the Foundation of the preſent Diſputes between the King of Denmark, and the new Emperor of Ruſſia, as Duke of Holſtein.

THE preſent Royal Family of Denmark was raiſed to that Dignity in 1653, by the free Choice of the People, when they expelled their King Chriſtian II. who is juſtly ſtiled the Nero of the North. In his ſtead they placed on the Throne his Uncle, Frederick Duke of Holſtein, who confirmed the great Privileges of the Nobility and Clergy.

The States of Denmark, in a Diet held at Copenhagen in 1660, conferred upon Frederick III. the abſolute Sovereignty of the Kingdom, and made it Hereditary, whereby the Power and Privileges long enjoyed by the Nobility were aboliſhed, and a new Form of Government was introduced, by which the King could do what he pleaſed without Controul. A Miſunderſtanding aroſe between the Succeſſor of this King and the Duke of Holſtein-Gottorp, which has never been properly conciliated, and ſeems now revived; the Riſe whereof is as follows:

Chriſtian V. in 1675, reſolved to recover Part of what his Predeceſſors had loſt to the Swedes; but, that he might be in a better Condition to do it, he ſeized the Duke of Holſtein, who came to viſit him at Renſburgh; and the Duke was put under a Guard, till ſuch Time as he conſented to relinquiſh the Advantages he had gained by the Treaty of Roſchild; after which, the King made himſelf Maſter of Tonningen, the ſtrongeſt Place in his Dominions; and alſo reduced Wiſmar.

In 1694, on the Death of the Duke of Holſtein-Gottorp, his Daniſh Majeſty formed new Claims upon this Family, which were for ſome Time adjuſted by the Mediation of the Emperor, and the Kings of Great Britain and Sweden; that is, William III. and Charles XII. whoſe Siſter the Duke of Holſtein had eſpouſed.

Frederick IV. of Denmark, reſolved to compel the Dukes of Holſtein to remain dependent on the Daniſh Kings for the future: And, in 1699, he over-ran Holſtein, and undertook the Siege of Tonningen, which gave Occaſion to that long War in the North in the Beginning of the preſent Century.

The Engliſh and Dutch, as Guaranties of the late Peace, ſent a powerful Fleet into the Baltic, and the King of Sweden at the ſame Time beſieged Copenhagen, ſo that the Danes were obliged to conclude a Peace.

This was done by the famous Treaty of Ravendahl, on the 18th of Auguſt, 1700; whereby it was ſtipulated, that the Houſe of Holſtein ſhould for the future enjoy the ſame Rights with other Sovereigns; that the Duke ſhould be at Liberty to raiſe Troops, and build Forts in his own Dominions, provided they were two Miles diſtant from any Fortreſs belonging to the Danes, and at leaſt a Mile diſtant from their Frontiers. It was likewiſe agreed, that the Crown of Denmark ſhould pay the Duke of Holſtein 260,000 Crowns; and that the Chapter of Lubeck ſhould be at Liberty to elect a Prince of Holſtein for their Biſhop.

Chriſtian VI. aſcended the Throne in 1730, and in 1732 acceded to the Treaty between the Courts of Vienna and Peterſburgh, by which he obtained their Guaranty for his own, and became himſelf Guarantee of their Dominions, and of the Pragmatick Sanction. In virtue of a ſeparate Article of this Treaty, the King of Denmark obliged himſelf to pay the Duke of Holſtein a Million of Rix-Dollars, provided he renounced his Pretenſions on the Dutchy of Sleſwick. But this Sum has not yet been paid, nor theſe Pretenſions adjuſted.

May 1. The Fonmon Caſtle, Stroud, from St. Kitts, bound to London; and the Richard and Thomas, Stoddard, from New-York, bound to this Port, are both taken, and carried into Bayonne.

The Bacchus, Butſon, of Chepſtow, from South-Carolina, coming up Channel for this Port, ſtruck on a Rock off Poſſet, and there ſtranded. She is ſince got into Port, with ſome Damage to her Cargo.

The Hope, Thomas OWEN, of this Port, is cut off by the Negroes on the Coaſt of Africa; the Captain and all the Crew are killed, except three who eſcaped on board another Veſſel.

CHARLES-TOWN, SOUTH-CAROLINA, June 19.

Laſt Saturday arrived here Capt. Ephraim Wolfe, in 42 Days from Ferrol, in Galicia: The Royal Charlotte, which he commands, was one of the Ships detained in Spain in December laſt; thoſe at Ferrol, five in Number, were diſcharged the firſt of May, upon the Spaniſh Ships, ſeized in England, being reſtored, and arrived in Spain.

When Capt. Wolfe left Ferrol, there were 7 Spaniſh Men of War, viz. 2 of 50 Guns, 2 of 64, and 3 of 74, in that Port, and 1 Frigate of 36 Guns, all fitted for the Sea, but ill manned as to the Quality of the Men. It was ſaid, they were intended to join the Squadron at Cadiz, as ſoon as that coaſt was clear of Engliſh Men of War.

The laſt Letters from Fort Prince-George, Keeowee, dated the 5th Inſt. ſay, that Capt. Mackintoſh, in a Conference he had with Tiſtowih, and the Warriors of the Lower Towns (after the Little-Carpenter's Departure for the Over-Hills) obſerved to them, what triſling Excuſes the Over-Hills Warriors offered for not bringing down their Priſoners according to Promiſe, and that it ſeemed to him, they did not care what became of their (the Lower-Towns) People, who are Priſoners amongſt us, becauſe they had a Trade with Virginia, and none of their People in Captivity. He added, that therefore, and as they had no Trade, it was their Buſineſs ſolely to get and deliver up the Priſoners, as by ſo doing they would recover their People, and obtain a Trade from Charles-Town, preferable to that from Virginia. That the Indians gave proper Attention to theſe Obſervations, and on the 28th ult. Tiſtowih, and the Old Warrior of Eſtatowih, with about 20 more, ſet out from that Fort for the Nation, promiſing faithfully to bring down all the white Priſoners and Negroes; and that to enable them to ſucceed, Capt. Mackintoſh ſpared them every Neceſſary he poſſibly could. That there were ſome Creeks at Toogoulou; and the Young Warrior, who continued to behave well, was gone to the Valley. That it was reported five of the Whatogah Indians were killed in their hunting Grounds the 21ſt ult. by ſome Northward Indians. And, that the Little Carpenter had juſt ſent in a Letter to acquaint Capt. Mackintoſh, that two Virginians had been killed, by Northward Indians, and deſiring that the Governor of Virginia might be informed of it.

Upon the Receipt of the above Advices, we hear, Capt. Mackintoſh has been directed not to proceed over the Hills till further Orders.

Some Time ſince, a white Girl that was then juſt returned from Captivity, told a Captain of our Rangers, that ſhe heard in the Nation, of a Party of Northward Indians having ſurprized a camp wherein were 15 Cherokees, all of whom they put to Death, except one, who was ſet at Liberty to tell the Warriors what had been done.

We hear, that Application has been made to his Excellency our Governor, by Petition, for two Townſhips, of 20,000 Acres each, to be ſurveyed and reſerved for a Number of poor Proteſtants the Petitioners engaged to bring over; which, if brought over, are promiſed their Proportions of Land, agreeable to the King's Inſtructions, and will receive the Bounty offered by this Province. The Time for the Reſerve, and the Arrival of the People, is to be limited; but no Warrant of Survey has as yet, that we can learn, iſſued.

Some Creek Indians came to Town on Thurſday Evening; but, as they have no Interpreter with them, their Errand is not yet known.

We hear, that about 200 of the Chactah Indians in the Britiſh Intereſt, may be expected in Town in a few Weeks; among which it is probable will be ſome of that Party which it has been obſtinately and repeatedly inſiſted on (in Contradiction to our Intelligence) were every one killed, &c. &c.

Beſides the Veſſels cleared for Departure, there are at preſent in this Port only 14 ſail, viz. 5 Ships, 1 Snow, 2 Brigantines, and 6 Sloops (including the Bien Aimée and St. Ferdinand, Prizes not yet ſold) moſt of which are near loaded.

B O S T O N, June 28.

Yeſterday arrived here Captain Morton, in 31 Days from Figuera, in Portugal, and informs that the Spaniards had commenced Hoſtilities againſt the Portugueſe, and had taken two or three of their unguarded Towns, though War had not been declared on either Side: That moſt of the Troops expected from England were arrived at Liſbon, and were preparing to march againſt the Spaniards: And that the Day after he ſailed, he was chaſed by a Man of War for 36 Hours, which at laſt came up with him, and proved to be Engliſh, who informed him, That they had Advice that the Spaniards had a Deſign to attack Oporto, and that he, with 5 other Men of War, were bound to its Aſſiſtance.

Extract of a Letter from Figuera, May 27.

"The Spaniards have finally taken off the Maſk, and have actually begun Hoſtilities, without a formal Declaration of War, and have taken ſome of the Frontier Places, that were without Defence; however all this is of little Conſequence."

We hear His Majeſty's Ship Launceſton, Captain Affleck, will certainly ſail from hence for Piſcataqua the 4th of July, in order to take under her Convoy the Maſt Ships bound for Europe.

N E W-Y O R K, July 1.

Yeſterday Afternoon ſailed from the Hook His Majeſty's Ships Enterpriſe, Captain Molton of 40 Guns, Lizard, Captain Banks 30 Guns, and the Porcupine Sloop of 14 Guns, Captain Fairwood, with 7 Tranſports, on board which are the 58th Regiment, under the Command of Col. Agnew.

July 5. On Thurſday, the 24th of June laſt, departed this Life at Amboy, in an advanced Age, the Hon. ANDREW JOHNSTON, Eſq; one of his Majeſty's Council for the Province of New-Jerſey, and Treaſurer of the Eaſtern Diviſion of that Province---A Gentleman of ſo fair and worthy a Character, that to attempt to draw it would be throwing away Words.---He was really equal to what Pope means, when he ſays, "An honeſt Man is the nobleſt Work of God."

On Saturday the 26th of June, arrived at Marblehead from Gibraltar, in 40 Days Paſſage, Capt. Cole. He informs, That Admiral Saunders was there with nineteen Sail of the Line, beſides a Number of Frigates, that were conſtantly cruiſing thereabouts; that the French and Spaniſh Fleets were at Carthagena, the Garriſon of Gibraltar in good Health, and high Spirits, being under no Apprehenſions of any Attack from the Enemy.

Capt. Cole in Lat. 39. 33. Long. 52. on the 14th Inſt. was taken and ranſomed by two French Men of War from Cape Francois to Breſt, one of which was a 60 Gun Ship, called the Partie, the other a Frigate, which Ships had before taken a Schooner with Gen. Monckton's Servants and Baggage on board, and alſo Capt. Hall, in a Veſſel from Boſton, bound to Barbados, which laſt Veſſel they alſo ranſomed, and put the General's Servants on board, to be put aſhore at the firſt Port ſhe arrived at.

The above-mentioned French Men of War, we hear, were diſpatched from the Cape for France, to carry an Account of the Operations of our Fleet and Army in the Weſt-Indies.

PHILADELPHIA, July 8.

On Tueſday Night arrived here the Brig Suſanna, Captain Sutton, in 25 Days from Jamaica. He came through the Gulph, and on the 25th of June was off the Havannah, when he could plainly ſee the Smoke, and hear the Report of the Guns of our Army and Enemy, firing at one another--------On the 26th he ſpoke with a Carolina Privateer, who had ſeen Captain Rivers, of this Place, and by him was informed, that our Army had landed ſafely at the Havannah, and were in Poſſeſſion of a high Hill, which commands the Moore Caſtle and Town, where they had erected their Batteries, and began to play on the Place the Fifteenth of June.-----Captain Sutton did not ſee our Fleet---The Number of Spaniſh Ships of War at the Havannah, ſaid to be 20, 14 of which of the Line.----He ſailed in Company with the Convoy that had the Negroe Soldiers for the Havannah, under their Care.

Captain Waſhington, in a Privateer belonging to Jamaica, has taken and carried in there a Spaniſh Snow, with a great Deal of Cocoa on board, ſuppoſed to be very valuable; alſo a Dutch Sloop.

By a Gentleman from Virginia we learn, that a Ship from Whitehaven for Virginia, with Dry Goods, was lately taken in Latitude 35. by a French Frigate, who, after taking Part of the Cargoe out, ranſomed the Veſſel for Three Hundred Pounds Sterling.

The Ship Sally, Captain David Stewart (mentioned lately to be taken on his Paſſage to Jamaica, and afterwards cut out by a Man of War) is arrived at Jamaica; but the Captain, and all his People, are at Port-au-Prince.

By Captain Lightburne, from Turks-Iſland, there is Advice, that Capt. Simpſon, from Antigua, and Capt. Frazer, from St. Martins, for this Port, a Liverpool Brig, and a Schooner from Maryland, who ſailed with the St. Chriſtophers Fleet, were all taken by a Spaniſh Privateer, and retaken by Captain Scull, in a Privateer belonging to St. Chriſtophers; but another Spaniſh Privateer afterwards fell in with, and retook Captain Frazer, and ſent him to St. Thomas's; alſo the Maryland Schooner, and gave her to the Priſoners-----Capt. Atherly, in a Bermudian Sloop, from Turks-Iſland to this Place, is alſo taken.

PHILADELPHIA.

On Saturday laſt a Committee of the Corporation for the Relief of poor and diſtreſſed Preſbyterian Miniſters, their Widows and Children, waited on his Honour the GOVERNOR with the following Addreſs.

To the Honourable JAMES HAMILTON, Eſq; Lieutenant-Governor and Commander in Chief of the Province of Pennſylvania, and Counties of New-Caſtle, Kent, and Suſſex, upon Delaware,

The humble ADDRESS of the CORPORATION for the Relief of poor and diſtreſſed Preſbyterian Miniſters, and of their Widows and Children.

May it pleaſe your HONOUR,

WE cannot but ſtill retain a grateful Senſe of your Honour's kind Interpoſition in our Favour with our honourable Proprietaries, for procuring us Letters of Incorporation, for the Relief of poor and diſtreſſed Preſbyterian Miniſters, and of their Widows and Children. And we are now pleaſed to find ourſelves under new Obligations to your Honour, for the Paſſport and Recommendations, with which you favoured our Agent, the Rev. Mr. CHARLES BEATY, which, we have the Pleaſure of aſſuring you, were of diſtinguiſhed Service to him in his Miſſion, both in Great-Britain and Ireland.

With Gratitude we acknowledge our additional Obligation to our Honourable Proprietary THOMAS PENN, Eſq; for his generous Donation to our Fund, and ſhall ever retain a proper Senſe of the Favour.

Permit us, Sir, to beg your Interpoſition in another Affair which lies near our Hearts, and which we cannot but eſteem a Matter of the laſt Importance to the civil and religious Intereſts of this Province, the Relief of many of our Fellow-Subjects and Fellow-Chriſtians, who are ſtill in Captivity among the Heathen. As we underſtand your Honour is ſoon to hold a Treaty with the Indian Nations, we doubt not but this Matter will come under your Conſideration. It deeply affects us, that many of our Relatives and Fellow-Chriſtians, or their Children, have been ſo many Years in the moſt diſtreſſing Circumſtances; expoſed to the lawleſs Rage of cruel Savages; removed from the Endearments of tender Parents and Friends; excluded from all Opportunities of Knowledge and Improvement; deprived of the invaluable Bleſſings of Britiſh Subjects, and cut off from all the glorious Privileges of the Chriſtian Churches. Their diſconſolate Parents and Relatives, who ſuffered ſeverely on our Frontiers, are poor and neglected, and may cry in ſecret to God, but have few Perſons of Weight or Influence to pity their Diſtreſſes, or to plead their Cauſe. We have long lamented for them in Silence, and have waited with Patience for a favourable Conjuncture of public Affairs to make our Griefs known to your Honour. We preſume not to preſcribe any Meaſures, but humbly hope, that if a Ranſom be demanded for every Captive, this will not be wanting; we, on our Part, will gladly contribute to ſo good a Work, provided no other Way more honourable can be deviſed; for we think it a Diſhonour, that Chriſtians and Britiſh Subjects ſhould live and die among ſavage Indians.

As God has bleſſed his Majeſty's Arms with uncommon Succeſs, and your Adminiſtration with Peace, Harmony and great Influence; and as, under the beſt of Kings, you are appointed the Guardian of our Liberties, our Protector, and our common Parent, permit us, honoured Sir, to repeat our earneſt and humble Requeſt, that you would exert your extenſive Influence on this Occaſion, to render your Province more reſpectable, and to merit the Bleſſing of the Diſtreſſed, by procuring the Liberty and Freedom of all their captive Children and Friends.

Signed in the Name and by Order of the Corporation, by
FRANCIS ALISON, Secretary.

To which his HONOUR was pleaſed to return the following

ANSWER.

GENTLEMEN,

I RETURN you my hearty Thanks for this kind Addreſs; and am extremely glad to hear, that the juſt Character and Recommendation I gave of the Reverend Mr. BEATY, were of Service to him in his late Miſſion to Great-Britain and Ireland.

The long Detention of Numbers of our Fellow-Subjects, who were unhappily made Captives by the Indians during the late Troubles, has given me a great deal of Concern for their miſerable Condition; in Conſequence of which, and of my Duty to the Public, I have never ceaſed, upon all proper Occaſions, to exert my utmoſt Ability and Influence for obtaining their Liberty, and ſafe Return to their Friends and Country.

And although my Endeavours for that Purpoſe have not been entirely fruitleſs, yet I am ſorry to acquaint you, that they have not hitherto been attended with all the Succeſs I wiſhed for, and had Reaſon to expect.

As, nevertheleſs, in my late Negotiations with the Indians, it hath been made a principal Condition of our Reconciliation and future Friendſhip, that they ſhould forthwith deliver up all the Engliſh Priſoners in their Power, and they have accordingly promiſed to do ſo, I am in Hopes, that at the enſuing Treaty at Lancaſter, by much the greateſt Part, if not the whole of them, will be reſtored to us.

You may be aſſured, Gentlemen, that no Pains or Care ſhall be omitted, on my Part, for the Attainment of ſo deſirable an End; and I cannot help thinking, that it redounds greatly to the Credit and Honour of your Body, that you have ſo readily made an Offer of your Contribution, for promoting the good Work, in Caſe it ſhall be wanted.

Diſpute between the Engliſh and Dutch Eaſt India Companies.

THE Charges againſt the Dutch Eaſt India Company, was contained in a Letter from the Preſident and Council of Bengal, to the Court of Directors in England: An Extract of which was, by Mr. Yorke, annexed to a Memorial, preſented by him to the States General on the 14th of Auguſt 1760, demanding Satisfaction for the Outrage.

The ſame Day, the States General referred this Memorial and Letter to the Directors of their Eaſt India Company, with Orders to make their Report thereon to their High Mightineſſes as ſoon as poſſible.

The Dutch India Company, for want of Advices from their Servants at Bengal of what had happened there, could not make their Report immediately: It was not till the 18th of March 1761, that they delivered to the States of Holland their State of the Caſe, a Copy of which was preſented by Mr. Hopp, the Dutch Envoy, to Mr. Pitt. That Miniſter finding it written in Low Dutch, returned it immediately, as he underſtood nothing of the Language. Upon which the States General were obliged to ſet a Perſon to tranſlate it into French, in which Language it was preſented on the 6th of October laſt to Lord Bute; who, by his Majeſty's Command, tranſmitted it to the Court of Directors of the Eaſt India Company.

The States of Holland had ordered Mr. Yorke's Memorial, with the Letter annexed to it, and the Report of their India Company; to be printed for the Uſe of the Members of the Aſſembly, in the ſame Manner as our Houſe of Commons ſometimes order a Report from a Committee, or a Bill, to be printed for the Uſe of the Members of their Houſe. A Copy of this Piece, however, found its Way to a Bookſeller at London, who printed for Sale a Tranſlation of it from the Low Dutch. The Engliſh Eaſt India Company, therefore, in order to vindicate their own Conduct, and that of their Servants, from injurious Miſrepreſentations, have found it neceſſary to offer to the Public a Copy of their Memorial to his Majeſty on this Subject, dated February 3, 1762; under the Title of

A Defence of the United Company of Merchants of England, trading to the Eaſt Indies, and their Servants (particularly thoſe at Bengal) againſt the Complaints of the Dutch Eaſt India Company.

THIS Memorial is written with ſo much Temper, and Strength of Argument, ſupported by the cleareſt Evidence, that it doth great Honour to the Company, and will probably remain for ever unanſwered. No Extract of it could give a juſt Idea of the whole: Our Readers muſt therefore be content with the bare Heads of the Reply it contains to the Dutch Anſwer to the Charge in our laſt, and to their Recrimination.

Dutch Anſwer. The Proof of the Complaints againſt the Eaſt-India Company reſts wholly on an Extract of a Letter from the Preſident and Council of Fort William, whoſe Teſtimony in this Caſe ſhould not claim full Credit, as they may be conſidered as formal Parties.

Engliſh Reply. This Remark is the more extraordinary, as in the Account which the Dutch Directors give of thoſe Tranſactions, many material Circumſtances reſt wholly on the Evidence of their own Servants; nor, in general, in Tranſactions ſo remote, can any other Proof be had, than Accounts tranſmitted by our reſpective Servants. The Dutch Directors by making uſe of this Letter as Evidence of whatever ſuits with their Account of the Tranſaction, give it the Authenticity they diſpute.

D. Anſwer. The Engliſh acknowledge in this very Letter, that it was only by Common Fame that they learnt that the Armament at Batavia was intended againſt Bengal. We can poſitively prove it was deſtined for Negapatam, to protect our Settlements on the Coaſt of Coromandel; and had no View to Bengal, except that the Governor of thoſe Settlements had Orders, as ſoon as Circumſtances ſhould no longer require that Number of Troops there, to ſend a Part of them to Bengal. The War on the Coaſt of Coromandel was carried on with great Vigour, not only between the Engliſh and French; but likewiſe between the latter and the Prince of Tanjore; and though the Dutch Company had obſerved the moſt ſtrict Neutrality, their Settlements were not ſecure from the Violences and Vexations of both Parties.

All the Troops were in Fact ſent directly to the Coaſt of Coromandel, and there diſembarked, except only thoſe on board the Veſſelet, which in her Paſſage was ſeparated by a Storm, and forced to proceed to the Ganges. If the Governor of Batavia had had the Deſigns imputed to him, would he have ordered them to take ſuch a round-about Courſe, inſtead of ſending them directly to Bengal?

E. Reply. For poſitive Proof of this Deſtination, the Dutch Directors have ſubſtituted poſitive Aſſertion. We expected to find, among the Pieces annexed to their Report, ſome authentic Vouchers on this Head, or at leaſt Copies of the Reſolution ſaid to be taken by the Government of Batavia in January 1759, to ſend Troops to the Coaſt of Coromandel; alſo Copies of the Orders to the Governor of their Settlements at Coromandel, and of the ſeveral Orders under which the Commanding Officers ſailed from Batavia, and conducted the Fleet and Army to Bengal; but no ſuch Papers are to be found there.

It is true, that the greater Part of this Armament did touch at Negapatam. The Governor of Batavia laboured to have it underſtood, that it was intended for Coromandel. The very Commander in Chief, Col. Rouſſel, as he aſſured Governor Clive, did not know, till he arrived at Negapatam, that he was to go further. This was not a Blunder in the Governor, if no other View could be diſcovered in it, than the Uſe that is now made of it to colour a future Aſſertion, that Bengal was not the original Object of its Deſtination, and to produce that Negligence which often attends a Belief that there is nothing to fear.

It is certain, and the contrary is not pretended, that the Troops which arrived at Negapatam, to be employed there for the Protection of the Company's Settlements, were not ſo employed; but, if diſembarked, as is ſaid, were all ſpeedily reimbarked, and forwarded to Bengal.

One cannot here but admire it as a wonderful Incident, that the Dutch, arriving in Obedience to their Orders at Negapatam, ſhould inſtantly find Reaſon to abandon their original Object, and proceed to that very Place to which the other Part of the Armament, contrary to Orders, and without knowing any thing of the ſecondary Object, to which the Governor of Negapatam was inſtructed to attend, had been before driven by Storm.

Could the Governor of Negapatam immediately forward the whole to Bengal, under Orders to employ the whole for the Protection of the Settlements under his Care, from the Violences and Vexations to which they were expoſed in Conſequence of the War; and when that was done, and not before, to ſend not the whole, but a Part of theſe Troops, to Bengal? This Gentleman's Conduct ſeems to evince one, if not both of theſe Things, That the Cauſe which is ſuppoſed to have given Riſe to this Armament

of Batavia, did not exist; and that no Reinforcement was wanted for the Protection of those Settlements; or if it were, that he had no such Orders.

Far from wanting a Reinforcement on the Coast of Coromandel, there is Reason to believe the Dutch had more Troops there at this very Time than were thought necessary; and that not only the whole Batavian Armament proceeded to Bengal, but that it was actually accompanied by a Reinforcement from Negapatam.

But not to rely on this Negative Proof only, that these Forces were destined for Bengal.

The first Information at Calcutta of a Dutch Armament, was about five Months before it arrived in Bengal River, from Captain Roach, an English Gentleman, then at Bengal, who making a Visit to Chinsura, and mentioning his Intention to return to Europe, was told by Mr. Isinck, a Member of the Dutch Council, that he would leave Bengal very seasonably, for that they (the Dutch Council) had applied for a Reinforcement from Batavia, on the Arrival of which he hoped the Face of Affairs would be greatly changed in their Favour.

Thomas Boddam, Esq; late a Member of the English Council at Calcutta, hath made Oath, that he met the Dutch Fiscal of Chinsura, at several Times, and frequently heard him say, before the Dutch Armament arrived in the Ganges in 1759, that they expected Forces there from Batavia; that in the Warmth of his Discourses on the Subject of an incident which had disgusted him, the Dutch Fiscal expressed himself to this Effect, that it would not be long before he should be able to do himself Justice, for that an Armament was coming from Batavia, of considerable Force. This Gentleman talked publickly in the same Strain, on his Visits at Calcutta. It was commonly talked at Chinsura, long before their Ships or Troops arrived, that the Dutch would soon take Satisfaction for the Injuries they had received, having endured too long the Insults of the Moors and English.

Mr. Herbert, the English Resident at Batavia, wrote to the President and Council of Fort St. George, June 1, 1759, that he was almost certain that a Party of the Forces to be embarked were designed for Bengal. June 16, after the Armament was embarked, the same Gentleman wrote, that he had very strong Reason to suspect, that after touching at Negapatam, it would proceed without much Loss of Time to Bengal. After the Fleet was sailed from Batavia, its Destination was no longer a Secret. Two English Supercargoes who went ashore at Batavia in July that Year, depose that they were informed, that the large Armament which sailed some Time before was to proceed to Bengal, and that the Dutch at Batavia had great Expectation from it. Capt. Pearse, of the Edgecote, and Capt. Carter, of the Chesterfield, who were at Batavia at the same Time, depose to the same Effect. Two Gentlemen being at Manilha, a Ship arrived there from Batavia, which brought a Letter from a Dutch Gentleman who was then coming on the Expedition, and who wrote that it was to proceed to Bengal, with Intent to create some Troubles with the English there. Captain Wilson, of the Pitt Indiaman, being at Batavia in August 1759, was informed by those who came on board to him, that some Time before a Fleet had sailed, with Land Forces on board, which was to proceed to Bengal; and Mr. Jackson his second Mate, who went on shore, informed him on his Return, that he heard it publickly talked in Batavia, that the Armament which had lately put to Sea was intended against the English Company's Settlements in Bengal; that from the Strength of it they did not doubt of Success; and that they should not leave one Englishman alive there. Mr. Carter, Governor of Bencoolen, wrote from Fort Marlborough, Sept. 17, 1759, that the Dutch were sending a large Force to Bengal, and that they made no Scruple to give out, that if they succeeded, they would cut every Englishman's Throat there.

By the Schooner Hound, Capt. Swanton, arrived at Boston from Lisbon, we have the following Advices, viz.

VERSAILLES, April 25.

THE Count d'Heroville de Claye will have the Command of 45000 French, which are assembling near Dunkirk. Five Lieutenant-Generals, and eleven Major-Generals are to command under him. He set out the 24th for the general Rendezvous.

Paris, April 29. It is certain that the Empress Queen has acceded to the Family Compact: This Step is the natural Consequence of the Defection of Russia, and her Union with Prussia and England.

Breslau, April 20. The King's Army is ordered to be in Readiness to march, but, according to Custom, none of his Majesty's Generals are informed of his Designs.

Bautzen, April 21. Silesia will still continue the Theatre of War, where 100,000 Austrians will take the Field this Campaign, in Opposition to 96 or 97000 Prussians. The Prudence of Marshal Daun, and the Activity of General Laudohn, will engage with the rapid and fruitful Genius of the King of Prussia.

Prague, April 24. Affairs in Silesia begin to be serious. The Enemy have already quitted their Quarters. Their Troops are also encamping. The advanced Posts of the two Armies are only Half a League distant. We hourly expect to hear of a general Engagement. We, on our Part, desire to put a glorious End to this tedious ruinous War: And it is the Interest of the King of Prussia to prevent an Augmentation of the Austrian Troops in Silesia. Our Troops in that Dutchy amount already to 100,000 Men; and when all the Reinforcements arrive, the Number of fighting Men cannot be less than 140,000, full of Courage and Good-will. The Hungarians have offered the Empress Queen an Army of 30,000 Insurgents.

Cassel, April 24. The Prince de Soubise is employed in providing for the Security of this City, and for keeping up the Communication with Gottingen, and the other Posts which we occupy.

Hanover, April 30. The last Letters from the Head Quarters express no particular Day for opening the Campaign. The Silence and Inactivity which hath prevailed among our Troops, ever since the taking of the Castle of Arensberg, make it more and more presumed that a Suspension of Arms is agreed upon.

Extract of a Letter from Brest, April 19.

"Our Men here work double Tides, and have done so for six Weeks past, in preparing a great Number of flat-bottomed Boats, which are now almost finished. They are designed for a grand Expedition, but to what Part is kept a profound Secret, though believed to be somewhat near, as they will not bear much Weather."

LONDON, May 6.

By a Letter from Paris we are informed, that on the Arrival of the Marquis de Vaudreuil in France, from his late Government of Canada, he was sent for immediately to Court, in order to give an Account of his Conduct in that Department, when several Officers appearing against him, and charging him with bad Management, &c. in his Proceedings against the English, he was committed Prisoner to the Bastile, where he now lies. The Bishop d'Autun, first Almoner to the King, interceded for him, and spoke strongly in his Favour, saying, that he had acted with Spirit in the Service of his Country; and, if it did not meet with that Success he meant, it was not his Fault: Adding, that the Marquis had Enemies who were much more deserving of being sent to the Bastile. This Freedom, however, was so far from being of Service to the Marquis, that, according to these Letters, the good Bishop himself got severely reprimanded, and has been ordered to quit the Court, and confine himself entirely to his own Diocese.

An Hungarian Messenger is arrived Express from the Court of Vienna, which causes much Speculation.

Extract of a Letter from an Officer in the Army cantoned near St. David's, in the East-Indies, dated July 24, 1761.

"You are, without Doubt, informed before this, that by the Success of our Arms the French are entirely drove out of India. The Fame of our Arms is now so respectable in this Part of the World, that but little Fighting is required to obtain what we wish for from any of the Country Powers.

"Col. Coote, with his Regiment, is sailed for Bengal. An Expedition being intended from that Part, to reinstate the lawful Heir in the Mogul Throne, the Highland Regiment will soon sail for Bombay. The Beginning of this Month the Seaford Frigate arrived from England, with particular Orders to Admiral Stevens, who died of an Apoplexy at Bombay. The Fleet from that Part is expected daily; it consists of nine Sail of the Line, and six Frigates, now commanded by Admiral Cornish. It is supposed the Frigate from England brought Orders to sail with the Fleet for Mauritius, where we are informed another Fleet is to meet them. By all Reports, the People there are already half starved, so that we shall probably make ourselves Masters of it without much Difficulty."

By a Letter from Rome, received by the last Mail, we are informed, that an English Gentleman having been lately introduced to the Pope, his Holiness was pleased, among other Things, to say, "That if the Intelligence he had received of the taking of "Martinico had not been unquestionable, he would not have be-"lieved we had been able to make so difficult a Conquest; and "that the Glory of the English Nation was now arrived to so "great a Height, that he should have thought it an Honour to "have been an Englishman."

The William and Mary, Andrews, from South-Carolina to London, is taken and carried into St. Maloes.

By a Gentleman just arrived from the Jersey we are informed, that at Bayonne, as fast as the Privateers come in from their Cruizes, the Men are immediately pressed, and sent to Brest by Land; and that the same Orders are observed in many other Ports of France.

The King of Prussia hath ordered all the Austrian Prisoners from Silesia, Magdebourg, and other Places in the Electorate of Brandenbourg, to be transported to the Pillau, and Memel, in Prussia, 6000 of them are already upon the Road from Silesia; in the same Manner, the Empress Queen has ordered the Prussian Prisoners to Tyrol and Hungary, the extreme Parts of her Dominions.

By Order of the Parliament of Paris, the Effects of the Jesuits in the College of Lewis le Grand, even the Church Ornaments, have been sold by Auction.

Letters from Eimbeck say, that the Allies are tracing a Camp under the Town; and that the Troops under the Hereditary Prince of Brunswick, to whom the Castle of Arensberg surrendered, are 12000 strong.

All the Prussian Troops have evacuated the Dutchy of Mecklenburg, except 15000 Foot, and 4 or 500 Horse, who are left there to collect the Arrears of the Contributions; the rest of them under Prince Eugene of Wurtemberg, are marched for Saxony.

They write from Dresden of the 18th ult. that Prince Henry of Prussia had ordered twenty of the principal Inhabitants of the Circle of Meissen, in Saxony, to be taken up, and sent to Magdebourg; the Reason not known.

May 8. Our Letters from all Parts of the Kingdom bring Accounts of the present prevailing Epidemic Disorder, which in some Places has proved fatal, and has been so general as to seize on People of all Ages and Constitutions.

Yesterday it was currently reported, that the Courts of France and Spain had presented a Memorial to the States General, equally as insolent as that sent to the Court of Portugal.

Letters from Genoa inform us, that his most Catholic Majesty, in Answer to the Lord Tyrawley's Threat of being at Madrid, at the Head of his Troops, soon after Whitsuntide, had sent Word to the King of Portugal, that for the Sake of avoiding all further Expence in Couriers, he should come and settle Matters with him himself at the Gates of Lisbon.

It is said, that Sir Edward Hawke is to join the Portuguese Squadron, in order to go in Concert upon some Expedition against the Enemy.

They write from Bonifacio, in the Island of Corsica, that early in the Morning of the 8th of April, the Garrison of Corti made a Sally on the Genoese Troops which are besieging that Place, of whom they killed and wounded many, took others Prisoners, and nailed up ten Pieces of Cannon; after which they set Fire to their Gabions, and retired in good Order back to the Town, having had but two Men killed, and 7 wounded.

The Court of Vienna have named the Count de Kevenhuller, Minister Plenipotentiary to the King of Sardinia, and he has Orders to set out immediately for Turin, with Instructions to assure his Sardinian Majesty, that due Attention shall be paid to his Claims in the future Settlement of Italy.

There is a great Scarcity of Provision and Forage in the Austrian Army in Silesia, notwithstanding it is pretended that such great Quantities have been transported from Bohemia and Hungary.

Sailed from Yarmouth and Hurst Roads, the Syren and Cramont Men of War, with Ships under Convoy for Quebec, Newfoundland, &c.

Yesterday Afternoon the Alderney Sloop, Capt. Hughes, arrived at Spithead from the East-Indies ---She came out the fourth of December, and has touched at Ireland.

The Atlantic, Green, from Piscataqua for London, is arrived at Dover, after being taken and ransomed for 1100 Pounds.

May 11. The Preparations of the French for an Invasion of England or Ireland are immense, and their Troops are in Motion from all Quarters, for Dunkirk, Havre, and Brest.

By Accounts from Turin we learn, that his Sardinian Majesty has rejected all the Offers made by the Courts of France and Spain, and is resolved to fulfil all his Engagements with the Court of Great-Britain, in a Manner becoming the Dignity of a Monarch.

On Sunday arrived at Cowes the Atlantic, Green, from New-England for London, who was taken by a French Privateer, and ransomed, and afterwards met with a Spanish Privateer, who had taken the Brayton, of Whitehaven, John Harrison Master, on the 26th of April, off Cape Clear, but treated him very civilly, and put him on board the Atlantic; he is safe arrived, and his Mate also. This was one of the Ships that came out of Carolina, under Convoy of the Dolphin Man of War.

By a Letter from Belleisle we have Advice, that the Prince of Wales, Curling, from South-Carolina to London, which was taken a few Weeks ago, and carried into Vigaro, near Corunna, by a French Privateer, had, by the Mate, with the Assistance of four Dutchmen, been cut out of the above Port, and is brought safe by them into Belleisle. We hear that the Owners have agreed to give to the Mate an eighth Part of her Value, for his Bravery.

The Enterprize Sloop, who was cruizing in the Gut of Gibraltar, is taken by a Privateer, and carried into Cadiz.

A Letter from a Merchant at Lisbon to a Gentleman in Town says, that the Subjects of his Portuguese Majesty, who live on the Borders of that Kingdom next to Spain, are beginning to remove their best Effects to Places of more Safety; and that many Families have already deserted their Dwellings, and carried every Thing away along with them: So that in some Places, for many Miles round, neither Man nor Beast is to be seen, except where the Troops are stationed, who are drawing together in large Bodies, as fast as they can, towards the Frontiers, in order to oppose the Operations of the Spaniards, who, on their Side, are getting together their Artillery, to besiege the Garrison of Elvas, which has been lately reinforced with 2000 Infantry, and 1500 Troopers.

The Spaniards, when the last Advices came away from Lisbon, had not entered the Portuguese Territories, and they who were best acquainted with that Country and Climate, think that the Season is so far advanced, that to prevent being exposed to the extreme Heats, they will, according to the old Usage, go into Quarters of Cantonment till the Month of September, in which they may commence their Autumn Campaign.

Besides the Troops already ordered from hence, and from Belleisle and Ireland, to Portugal, 14,000 more Infantry are, we are told, to be sent thither; eight Battalions of which are to come from Germany, whose Place is to be supplied with Prussians, and the King of Prussia is to be reinforced with a large Body of Russians, some say, 50,000 Horse and Foot, in British Pay, in Consideration of which no Subsidy is to be paid to Prussia.

Letters from Lisbon by Way of Holland, mention, that the Secretary to the Portuguese Ambassador at Madrid, was arrived there from thence, and brought the Jewels and Money which the late Queen of Spain left by her Will to the Infant Don Pedro, amounting to 5 or 600,000 Cruzados.

This Day the Lion and Hind Men of War, with the Transports and Troops for Lisbon, were to sail from Portsmouth. Two Troops of Light Horse embarked there Yesterday.

By the last Letters from Brest it appears, there were but five Men of War in that Harbour, three of which were preparing for Sea with great Expedition, and on board of them a considerable Number of Land Forces were ordered to embark, the Destination of which was supposed to be for St. Domingo.

A private Letter from Brest, dated April 11, mentions, that a Man was detected there setting Fire to one of their new flat-bottomed Boats which are building in their Docks. The Discovery was owing to one of the Workmen, who being tired with the Employment of the Day, had laid himself down to rest in one of the Boats near to which the Fact was attempted. This giving him an Opportunity of being a Witness to his Preparations, the Fellow was apprehended before he could execute his Design. He was put to the Torture, in Hopes of making Discoveries, but they could not extort any Thing from him, on which he was ordered to be immediately hanged. They talk there, that a great Number of Troops will soon embark on board these Boats, to make a Descent on some Part of the English Coast, if they can but escape the Vigilance of our Cruizers, who keep a very good Look-out upon their Ports.

Letters from Gibraltar, bring an Account, that there are now at Sea no less than 40 armed Corsairs from Algiers and Tunis cruizing upon the Spaniards, and that many more armed Vessels were fitted out at Tripoli, Sallee, and other Ports of Barbary, on the same Account.

Plymouth, May 4. Yesterday arrived the Hero Cartel, Capt. M'Min, from St. Maloes, with 312 English Prisoners, the greatest Part of which went ashore at Dartmouth for fear of being impress. By some Captains of Merchant Ships, which came over in the Hero, we learn, that the French are greatly exasperated at us on the last great Blow that we struck them; the Thoughts of Martinico prick them to the Quick, and they swear that they will be revenged either upon us or their Commanders. They have been parading a Regiment or two for this Week past, backward and forward, pretending to be in great Hurry, like Quacks on a Journey. Their Privateers are near all taken; they have only two in the Harbour, and one of them is taken into the India Service, and it is thought she is going to be sent out with some Dispatches. There were about 200 English Prisoners left behind in Dunann.

BRIDGE-TOWN, BARBADOS, June 17.

Last Saturday arrived here the Fleet from London, under Convoy of his Majesty's Ships the Danæ and Winchester, the latter of which they fell in with about 4 Days before their Arrival, coming from the Coast of Guiney. In Latitude 44 they discovered 4 Sail which proved to be French Men of War, 2 of the Line, and 2 Frigates; but our Fleet being in Company with his Majesty's Ship Superbe, and another 40 Gun Ship (Convoy to the Virginia Fleet) they, with the Danæ, drew up to Face them, which the French perceiving, thought proper to sheer off, and they saw no more of them.

A few Days ago arrived here from Martinico, Capt. Morris, of this Island, who brings Advice, that between the 10th and 12th Instant, Nine Sail of English Vessels were taken off Martinico by three Privateer Sloops, supposed to be French; one of which mounted 6 Guns, another 8, and a third 10. They burnt a Brig which they took, belonging to New-England; robbed a Sloop of 400 Half Johannes's, her Colours, &c. and then returned her to the Captain. The Privateer of 6 Guns is commanded by M. Morris, who we hope soon to have the Pleasure of congratulating on his safe Arrival at our Goal, as one or two of his Majesty's Frigates are now cruizing, to convoy (if possible) the Monsieurs in to Port.

St. JOHN, in ANTIGUA, June 23.

By the Free-Mason, Capt. Conyers, which arrived here Yesterday from Martinico, we hear, that Mr. George St. Lawrence, Collector of the Customs at St. Lucia, had been carried away by the Crew of a Spanish Pettiaugre Privateer, after they had cut him in a very inhuman Manner, and set his House on Fire; it is thought several of the French Inhabitants assisted the Spaniards, who, we hear, his Majesty's Brigantine Antigua is gone for, in order to take their Tryal at Martinico.

CHARLES-TOWN, SOUTH-CAROLINA, June 26.

Wednesday last arrived here Capt. John Doyle in 8 Days from Providence, by whom we learn, that the Sloop Sea-Nymph of New-York, a Flag of Trade, lately carried in there, has been condemned with her Cargo. That since our former Account from thence, only one Prize has been taken by the Privateers belonging to that Island, viz. a Spanish Schooner, called the Santa Barbara, by which no other Intelligence had been gained, than that the Spaniards were in daily Expectation of a Visit from the Earl of Albemarle, and Sir George Pocock, and, in Consequence thereof, had been making all the necessary Preparations for their Reception. That one Providence Privateer had lately met with Rubbers from two Spanish Vessels, and was glad to get off; and another, called the Hum-Bird, Capt. John Drew, was supposed to be taken.---In Capt. Doyle is come Passenger Capt. Joseph Seton, who was Prize-master of a Schooner belonging to Boston, one Chambers, former Master, which had been taken about the 25th of March last by the General Thomas Privateer of New-Providence, and foundered two Days after being taken, about a Mile and a Half from the West-Caicos; whereupon he and his Hands took to their Boat to go to Providence, but in their Way on the 29th of March, were intercepted by and taken on board a French Privateer Brigantine from the Cape, destined for this Coast, where she cruized five Weeks, chasing many Vessels but taking none.

The Creek Indians who came to Town last Week uninvited and without a Linguister, are returned, having received a few trading Guns, Powder and Ball. It is said they expected considerable Presents, and came for nothing else.

It is said, that the Creek Indians who were lately at Tougaloo, while the Young Warrior of Estatowih was gone to the Valley, and waited there his Return to deliver him a Message (the Purport of which we do not find is known) on their Return robbed a Trader who was going to the Valley from Augusta, of some of his Goods, Horses, and two Kegs of Rum, and that Scrowing was much displeased with their Behaviour.

BOSTON, July 8.

Extract of a Letter from Lisbon, May 25, 1762.

"All Intercourse with France and Spain is prohibited, and War has been declared here against these two Powers. The Spaniards have committed Hostilities on the Northern Frontiers, taking Possession of some Places in the Portuguese Territories. This Attack made in that Quarter has given a great Alarm to the Inhabitants of Porto; but as that Country is by Nature very difficult of Access, it will so obstruct the Enemy's Proceedings as to give Time for sending proper Succours to protect that Province, or at least to secure the City from any Danger. Two English Regiments are arrived here, and a further considerable Reinforcement is daily expected, which, added to the Portuguese Army (which already is upwards of 40,000 Men) it is hoped will be sufficient to baffle the Attempts which Spain may make upon this Country, which will act only on the Defensive; and in so just a Cause we

may reasonably hope to have Success. The Bourbon Family have forced this Kingdom into the War, without the least Shadow of Equity for such a Proceeding, having no other Pretext for this Rupture than a Demand that Portugal should join in their offensive Alliance against England."

July 12. The Master of a Fishing Vessel arrived here Yesterday from Cape-Ann says, That on the 26th of June, on Bank Vert, in Lat. 46, he spoke with a Brig, in Company with another Brig and Schooner, all full of Men, Women and Children, who said that on the 24th they had been drove off their Settlement in the Bay of Bulls, near St. John's in Newfoundland, by three Spanish Men of War of the Line, from 80 to 60 Guns, and one Frigate, who landed and destroyed their Cattle; that they escaped to another Harbour, and got on board these Vessels. That the Spanish Ships had drove on Shore a Brig from Ireland, with about 100 Soldiers, who got to the Land; but the Brig was taken. That a Fishing Vessel had got to St. John's, the Master of which said, he saw the Spaniards sink 10 Fishing Vessels on the Great Bank. That there were other Spanish Ships of Force on the Banks besides the forementioned Vessels. That they expected to be attacked at St. John's.

Capt. Samuel Dogget, of the Sloop Swallow, arrived here Yesterday in 8 Days from Halifax, and says, That on the 27th of June he heard that the Syrene Frigate was arrived there with Advice, That a Fishing Schooner had come into St. John's, who said, that on the Banks he met with 5 large Ships and a Frigate, who fired 100 Shot at him, and several Vollies of Small Arms, but he escaped in a Fog.---That the Syrene in her Passage met with 6 Transports for Quebec, one of which, a large Ship, said, that they had fired at a Schooner to bring her to, the Day mentioned by the Schooner aforesaid.

The Syrene and Gramont Frigates sailed from England about the 1st of May, as Convoy to several Vessels bound to Newfoundland, Quebec, &c.

The Syrene arrived at Halifax last Thursday Se'nnight, and after staying there a short Time, sailed again for *****.---Lord Colvil, in the Northumberland Man of War of 74 Guns, is now at Halifax.

NEW-YORK, July 15.

On Tuesday last arrived here the Sloop Alice, Capt. Tosh, in 30 Days from Jamaica; but last from the Havannah in 15 Days. By him we learn, that 17 Days ago, three Leagues off the Havannah, he was boarded by an English Officer of his Majesty's Ship the Alcide, who informed him, that the Troops under the Command of the Earl of Albemarle, landed at the Havannah without Opposition; but that the Spaniards gave them a warm Reception as soon as they made their Approaches; that they had sunk three of their Ships in the Entrance of the Harbour, to prevent the English Fleet from getting in; that a Party of Sailors belonging to an English Frigate, going on Shore in Search of fresh Provisions, were surrounded by the Enemy, and 13 of them cut to Pieces, in a very inhuman Manner; and that a Lieutenant of the Rangers had his Nose and Ears cut off, and was otherwise used very ungenteely by the Spaniards, and sent to the English Camp by Way of Derision; which Intelligence incensed the Earl of Albemarle so much, that he sent Word to the Governor of the Havannah, that he should neither give nor take Quarters, and desired him to kill every English Prisoner he should take, for he would do the same by all the Spaniards he met with.

About a Week before Capt. Tosh left Jamaica, some English Prisoners arrived there from St. Jago on the Island of Cuba, who had been taken and carried in there by a French Privateer:----- They assured, That the Spaniards at that Place had not received any Account of War being declared; that no Privateers were fitted out there; and that only two Men of War were in that Harbour, with their Top-masts and Yards all struck.

Extract of a Letter from a Gentleman at New-Port, in Rhode-Island, to his Friend in this City, dated July 13, 1762.

"Last Evening arrived here from St. Michael's, one of the Western Islands, Capt. James Clark, who brings an Account of one of our Men of War taking a Spanish Galleon with 37 Millions of Dollars on board, and carried her to England; she was taken near the Western Islands in her Way to Spain. There were five of them, not in Company, which were to sail soon after this, and that there were two large Gallies cruising off the Island to meet them, to furnish them with Men, which they had on board for that Purpose. Capt. Clarke informs farther, that he spoke with the Superbe Man of War, who informed him that she and two more Men of War was stationed off the Island to cruise for the other Galleons; and that there were four French Men of War cruising likewise to meet with the Galleons, to convoy them safe to Port: That one Day the English Men of War saw the four French to the Windward of them lying by, but did not offer to bear down, and that another of our Men of War had taken a very rich Spanish Ship, loaded with Money and Hides from Colona, in the Brasils, and carried her to Madeira, he says that the above News was credited in the Island."

July 19. Since our last the Seahorse, Capt. James, bound to Boston from Fort Dolphin, on Hispaniola, was sent in here by the Mars, Capt. M'Gillicuddy. She was seized the 10th Instant, in Lat. 36, 52, and is loaded with Sugar, Indico, and Coffee.

Thursday the 28th Inst. is to be observed as a Day of Prayer throughout the Massachusetts-Bay Government; to supplicate the Interposition of Divine Providence to relieve the Country from the imminent Danger with which it is threatened, by dispensing timely and plentiful Rain.

The Ship William and Mary, Capt. Nicholson, and Brig Grace, Capt. Ritchie, are arrived here from Gibraltar -----These Vessels were two of those detained in Spain since the Beginning of the Spanish War, and released by Order of that Court. By a Gentleman who came Passenger, we are favoured with the following Intelligence, viz. That a Dutch Man of War arrived at Malaga about the first of May, and informed, that 12 Ships of the Line, and 4 Frigates, were preparing for the Sea at Toulon, with the utmost Expedition, and it was thought would be ready to sail for Carthagena about the latter End of May: That there were 12 Ships of the Line at Cadiz, besides Frigates, and 4 of the large Ships were actually fallen into the Bay, manned and ready for Sea: That the Spanish Army going against Portugal consisted of 40,000 Men, and was encamped at Zamora; General Soria, who commanded it, is said to be recalled, and the Conde Miranda, Minister at the Court of Poland, is ordered to the Command thereof: That there was some Desertion among the Spanish Troops, and many more would follow as Opportunity offered: That the Portuguese Frontier Garrisons are well provided, and that their Army amounted to 30,000 Foot: That about the 24th of May they heard at Gibraltar, that two new-raised Regiments were arrived at Lisbon from Ireland, and more daily expected, also a fine Train of Artillery, and a Camp was marked out for the English Troops a few Miles from Lisbon: That there were 8 Sail of Portuguese Men of War of the Line ready for Sea: That the King of Spain had issued an Edict, forbidding all Trade by Sea for three Years, if the War lasted so long: That the Spanish Nation was much dissatisfied with the War: That 17 Sail of the Line, with 6 Frigates, and 3 Bombs, were at Gibraltar, under the Command of Admiral Saunders, and Commodores Brett and Amherst, who keep a good Look-out for the Carthagena and Toulon Squadrons, which were expected down: That it was said two whole Regiments had left the Spanish Army, and joined the Portuguese: That the former were in much Want of the Necessaries for an Army; and that a French Privateer of 22 Guns was sent into Gibraltar.

By the HONOURABLE THOMAS FITCH, Esquire, GOVERNOR of His Majesty's Colony of Connecticut, in New-England, in America,

A PROCLAMATION.

WHEREAS a considerable Number of Persons, mostly Inhabitants of this Colony, lately convened in this Place, by the Name of the SASQUEHANNAH COMPANY, among other Things, agreed and voted, a Number of them should, within the Space of four Months, proceed and settle themselves on the Banks of the Sasquehannah River, from whence much Disturbance may be apprehended, and Opposition made to such Settlement, to the Hazard of the Public Peace; in the Blame whereof this Government may possibly become involved, unless prevented by publickly discountenancing a Procedure of such a dangerous Tendency,

I have therefore thought fit, by and with the Advice of the Council, and at the Desire of the Representatives, now in General Court assembled, to issue this PROCLAMATION, hereby warning all Persons, Inhabitants of this Colony, to forbear making Entrance on said Lands, lest they thereby occasion new Disturbance of the public Peace and Tranquility, and subject themselves to the Royal Displeasure.---And I do hereby publish and declare that such Proceedings are disapproved and discountenanced by the Authority of this Government.

July 29, 1762. NUMB. 1753

The PENNSYLVANIA GAZETTE.

Containing the Freſheſt Advices, Foreign and Domeſtic.

From the St. JAMES's CHRONICLE, May 6, 1762.

Tranſlation of a Memorial of the Spaniſh Ambaſſador, and of the Miniſter Plenipotentiary of France, to his Moſt Faithful Majeſty, the King of Portugal.

DON Joſeph Torrero, Ambaſſador Extraordinary of the Catholic King, and Don James O Dun, Miniſter Plenipotentiary of the Moſt Chriſtian King, at this Court, by the expreſs and poſitive Orders of their Maſters, declare, with the greateſt Reſpect, to the Moſt Faithful King;

That the two Sovereigns of France and Spain, being obliged to ſupport a War againſt the Engliſh, have found it proper and neceſſary, to eſtabliſh ſeveral mutual and reciprocal Obligations between them; and to take other indiſpenſable Meaſures to curb the Pride of the Britiſh Nation, which, by an ambitious Project to become deſpotic over the Sea, and conſequently over all maritime Commerce, pretends to keep dependant the Poſſeſſions of other Powers in the new World, in order to introduce themſelves there, either by an underhand Uſurpation, or by Conqueſt.

That the firſt Meaſure which the Kings of France and Spain agreed on, was to have the Moſt Faithful King in their offenſive and defenſive Alliance, and to deſire him to join their Majeſties forthwith; That they expected, that the Moſt Faithful King would acquieſce therein, conformable to what he owes to himſelf, and to his Kingdom, ſince his Subjects feel, much more than other Nations, the Yoke which Great-Britain lays, and which ſhe means to extend over all thoſe, who have Poſſeſſions beyond Sea; and that it would be unjuſt for France and Spain to ſacrifice themſelves for an Object, in which Portugal is ſo much intereſted; and that inſtead of aſſiſting them, they ſhould make it impoſſible for them to ſucceed, by allowing the Engliſh to enrich themſelves by their Commerce, and to enter their Ports, not only to make Uſe of them as an Aſylum, but to be more at Hand to hurt the Defenders of the Cauſe of Portugal.

That, in this Spirit, the Ambaſſador of Spain, and the Miniſter Plenipotentiary of France, deſire the Moſt Faithful King to declare himſelf united with their Catholic and Moſt Chriſtian Majeſties in the preſent War againſt the Engliſh, to break off all Correſpondence and Commerce with that Power, as the common Enemy of all the three, and even of all maritime Nations; to ſend away from his Ports, and to ſhut them againſt all their Men of War and Merchant Ships; and to join to the Forces of France and Spain, thoſe which the Moſt High has put in his Hands, in order to make them equal to thoſe of the Enemy.

This Declaration, made by the two Monarchs of France and Spain, as being agreed and concerted between them, his Catholic Majeſty has, in the mean time, inſtructed his Ambaſſador to make this Reflection to the Moſt Faithful King (in order that his magnanimous Breaſt may the more eaſily, and the more ſpeedily, determine, without being ſtopped by other Impreſſions, to take the part moſt conſonant to his Advantage and Glory) That it is the Brother of the Queen his Wife, a true Friend, and a moderate and quiet Neighbour, who has made this Propoſal to him, and who has agreed to it, conſidering the Intereſts of the Moſt Faithful King as his own, and wiſhing to unite the one with the other, ſo as that, either in Peace or War, Spain and Portugal may be conſidered as belonging to one Maſter; and in order that, if any Power ſhould think of making War with Spain, they may not imagine they ſhall find, in her own Houſe, Shelter and Succours to attack her, as happened with regard to Portugal in the Wars which King Philip the Fifth, his Father, and Father-in-law of the Moſt Faithful King, was obliged to ſupport againſt England. How much more glorious, and more uſeful, will it be, for the Moſt Faithful King to have for his Ally, a Catholick King, his near Relation, his Neighbour in Europe, and in America, to aſſiſt each other mutually, and with Eaſe, than the Engliſh Nation, incapable, by their Haughtineſs, of conſidering other Sovereigns with Equality, and always deſirous to make them feel the Influence of their Power; and what Occaſion can the Moſt Faithful King have for the Aſſiſtance of England, when, by an offenſive and defenſive League, he ſhall be united with Spain and France.

Theſe Conſiderations are ſo ſtrong, that the Catholic King thinks, there can be no Doubt, but that the Moſt Faithful King, his Brother-in-law, will yield to them, without ſtopping a Moment; ſo much the more, as his Catholic Majeſty, before making this Invitation, and in order to prevent the Danger which the Maritime Places of Portugal might run, when the Part taken by his Moſt Faithful Majeſty ſhall come to the Knowledge of the Engliſh, his Catholic Majeſty has cauſed his Troops to march to the Frontiers of Portugal; ſo that, in a very few Days, they may garriſon the principal Ports of the Kingdom, and they will do it, after the Anſwer of the Moſt Faithful King, which, doubtleſs, will be as ſpeedy, as clear, and as deciſive, as the Neceſſity, and the poſitive Determination of his Catholic Majeſty to prevent the Deſigns of his Enemies, require.

Liſbon, 16th of March, 1762.

(Signed) DON JOSEPH TORRERO,
JACQUES BERNARD O DUN.

The two Miniſters added to this Memorial, That they were ordered by their Courts to demand a categorical Anſwer in four Days, and every Delay beyond that Term would be conſidered as a Negative.

Tranſlation of the Anſwer of the Secretary of State of his Moſt Faithful Majeſty, to the Memorial of the Spaniſh Ambaſſador, and the Miniſter Plenipotentiary of France.

DON Lewis da Cunha, Secretary of State to the Moſt Faithful King, having laid before his Majeſty the Memorial, which his Excellency Monſ. Torrero, the Catholic King's Ambaſſador, and Monſ. O Dun, Miniſter Plenipotentiary from the Moſt Chriſtian King, at this Court, delivered to him the 16th of this Month, wherein, after having declared the Reaſons of the preſent War, broken out between the ſaid two Monarchs and England, his Moſt Faithful Majeſty is invited to unite himſelf, by an offenſive and defenſive League, to the two Courts of Verſailles, and of Madrid, againſt England; to break off all Communication and Commerce with the Engliſh; to treat them as the common Enemies, not only of the three allied Powers, but of all the other maritime Ones; to drive them from his Ports, to ſhut them againſt all Ships of War and Merchant Ships, and to join the Portugueſe Forces to thoſe of France and Spain, to obtain, by this Means, the Object of ſaid War; the Ambaſſador of the Catholic King finally declaring, That that Monarch, before he cauſed the above mentioned Memorial to be preſented to the King, had ordered his Troops to march to the Frontiers of Portugal, to prevent the Deſigns of the Engliſh, who might have ſurprized the maritime Places of this Kingdom, when the offenſive Union of his Moſt Faithful Majeſty, with their Catholic and Moſt Chriſtian Majeſties, ſhould come to their Knowledge.

The King having taken the Contents of the aforeſaid Memorial into ſerious Conſideration, in the preciſe Term of four Days, has ordered his Secretary of State to anſwer:---That his Moſt Faithful Majeſty is ſenſibly affected at ſeeing the Flames of War kindled between the Powers with whom he is cloſely connected by Ties of Blood, and of ſolemn Friendſhip, and by ſolemn Treaties, ſuch as Spain, France, and Great-Britain: That his Moſt Faithful Majeſty wiſhes that thoſe ſame Ties, and the Neutrality he obſerves, may enable him to propoſe, by his Mediation, a Renewal of the Conferences broken off at London, ſome Time ſince, and to ſee if by this Means it be poſſible to reconcile Intereſts and Minds: So that, without further Effuſion of human Blood, an advantageous, neceſſary, and uſeful Peace may be obtained.

That his Moſt Faithful Majeſty, diſpoſed as much as poſſible to comply with the Propoſal made on the Part of the Catholic and Moſt Chriſtian Kings, deſires them, nevertheleſs, to reflect on the inſurmountable Obſtacles which hinder him from entering into the offenſive League propoſed to him. That the Court of Portugal having ancient and uninterrupted Alliances with the Britiſh Court, for many Years paſt, by ſolemn and public Treaties, purely defenſive, and as ſuch, innocent; and not having received any immediate Offence on the Part of Great-Britain to break the ſame Treaties, his Moſt Faithful Majeſty could not enter into an offenſive League againſt that Court, without being wanting to the public Faith, Religion, Fidelity, and Decorum, which are the invariable Principles of his Majeſty's Mind, and of all religious and magnanimous Princes, ſuch as the Catholic and Moſt Chriſtian Kings.

That, beſides theſe Conſiderations, his Moſt Faithful Majeſty, loving his Subjects as a Father, and being obliged to attend to their Preſervation as King, it is eaſy to ſee, that he would be wanting both to one and the other, if he ſhould oblige them to endure the Calamities of an offenſive War, which they are not in a Condition to ſupport, after the Misfortunes which have happened in Portugal, by the long Sickneſs of the late King, his Majeſty's glorious Father; by the Earthquake in 1755, and the horrid Conſpiracy of 1758.

That his Moſt Faithful Majeſty, on theſe Principles of Religion, Humanity, and public Faith, having embraced the Syſtem of Neutrality, has given Orders to repair his Ports and maritime Places, and to provide them with every Thing neceſſary; and to equip a ſufficient Number of Ships of War to protect them; he has cauſed his Troops to be held ready, and at hand, to prevent, in the ſaid Ports and maritime Places, thoſe Accidents which might happen there: All theſe Diſpoſitions having been made for the common Advantage of the Powers at War, without Diſtinction of any; and in order that the Subjects of the ſame Powers may enjoy the Protection and Hoſpitality granted, and religiouſly obſerved at all Times in the Ports of this Kingdom, according to the common Rule of the Law of Nations, and the Practice of all the Courts, who have no Intereſt to take Part in the Wars which are kindled between other Nations.

In ſhort, the above-mentioned Secretary of State of his Moſt Faithful Majeſty has the King's Orders to tell his Excellency Don Joſeph Torrero, in order that he may tranſmit it to the King his Maſter, That his Moſt Faithful Majeſty, ſince the Acceſſion of his Catholic Majeſty to the Throne of Spain, has always given him the moſt diſtinguiſhed Marks of a Brother who loves him, of a Brother-in-law who eſteems him, of a ſincere Friend, and of a Neighbour, who has forgotten nothing to cultivate an intimate Correſpondence with him, even ſo far as to ſtipulate by the laſt Treaty, of the 12th of February of the preceding Year, even when the Acquiſitions of the King were in Queſtion, "That he preferred to every other Intereſt, that of removing the ſmalleſt Occaſion that might become an Obſtacle to, or alter not only the good Correſpondence due to his Friendſhip, and to the ſtrict Ties of Blood, but that might prevent an intimate Union between their reſpective Subjects." The King hopes, that the Moment his Catholic Majeſty ſhall have reflected on all theſe Marks of Love, of Friendſhip, and of uninterrupted Diſpoſitions to pleaſe him, and ſhall have weighed them with the Force of the Reaſons above recited, he will ſee, on the one hand, that theſe Reaſons alone, which exceed the Limits of the King's Power, hinder him from entering into the League propoſed to him; and, on the other hand, he will alſo ſee, that it is impoſſible for any Thing to be done in the Ports of this Kingdom contrary to the Intereſts of his Catholic Majeſty, and to the firm Neutrality which this Court conſiders as a neceſſary Principle of her Syſtem.

¶ WILLIAM WAYN.

Gripswald, April 24. The Ruſſians in Pomerania, and thoſe in the New Marche of Brandenburg, obſerve the moſt exact Diſcipline; they are as it were transformed into Pruſſians, for they wear the ſame Uniform, obſerve the ſame Exerciſe, and ſeem to have Pruſſian Hearts: They live in perfect Harmony with the King's Subjects, even the Coſſacks are become civilized.

Florence, April 20. In the Night between the 14th and 15th, a Shock of an Earthquake was felt here, by which we were more frightened than hurt; but at Six the enſuing Evening there happened another Shock, which damaged ſeveral Houſes in the Borough of St. Lawrence, and ſo terrified the Inhabitants, that they all ran into the Fields, where they ſtill lodge in Booths.

Paris, April 30. As the Ceſſation of Arms between the Swedes and Pruſſians will doubtleſs be ſoon followed by a formal Treaty of Peace, our Miniſtry will have no longer any Connections with the North, at leaſt whilſt the Courts of Peterſburgh and Berlin remain united. It is probable, therefore, that both our Ambaſſador and Conſul in Ruſſia will be recalled.

Peterſburgh, April 6. The Duke de Biron appeared on Sunday laſt in the Drawing-room, with the Blue Ribband of Ruſſia, with which the Emperor had been pleaſed to inveſt him in his private Apartment juſt before. The old Duke was accompanied by the two Princes, his Sons, and his Imperial Majeſty ſhewed great Diſtinction to the whole Family, particularly to the Duke.

Veldt-Mareſchal Munich arrived here the 4th Inſtant, in perfect Health, from the Place of his Exile.

Hague, May 1. We are very poſitively told, both from Peterſburgh and Hamburgh, that the Treaties between his Imperial Majeſty of Ruſſia and the Crown of Sweden, with the King of Pruſſia, will be ſigned the ſame Day, and poſſibly a proviſional Treaty with the Crown of Denmark alſo. His Pruſſian Majeſty has offered to evacuate that Part of Saxony which is in their Poſſeſſion. There is a very ſtrong Rumour that a Ceſſation of Arms has been concluded between the French and the Allies, but as this is known to come from Bruſſels, it does not meet with much Credit.

Admiralty-Office, May 3. His Majeſty's Ships the Æolus and Brilliant are arrived at Plymouth from a Cruiſe, having brought in the Mignion Privateer, belonging to Bayonne, of 8 Guns, and 63 Men. They alſo retook a Dogger from Carolina, bound to Poole, which had been taken by the ſaid Privateer.

LONDON, May 1.

The Navy of Portugal conſiſts at preſent of 8 Ships of the Line fit for Sea, two of which are of 74 Guns, and two of 64. One of theſe Ships is fitted out in a ſuperb Manner, it is ſuppoſed, for Reception of ſome of the Royal Family.

May 4. By a Gentleman lately arrived from Peterſburgh we are told, that the Emperor of Ruſſia drinks daily at his Table, 'Proſperity to Great-Britain, and to the Healths of the Kings of England and Pruſſia.'

Letters from Stockholm ſay, that as ſoon as the News of the ſigning of the Armiſtice between the Pruſſians and Swedes arrived there, the Queen ſent one of her Gentlemen to the King of Pruſſia, her Brother, to inform him of the Satisfaction ſhe felt at that Introduction to a Pacification between the two States.

The Auſtrian and French Miniſters made ſtrong Repreſentations to the Senate of Sweden, to prevent their liſtening to a Suſpenſion of Arms; but they were told, that the Kingdom permitted not, in the preſent Juncture, the Adoption of a Syſtem contrary to that of the Court of Ruſſia.

The laſt Letters from Paris adviſe, that the People clamour loudly againſt the Miniſtry, ſince they have learnt that the Number of regular Troops in Martinico when it was beſieged did not exceed a Thouſand. They ſay, that this Neglect is the more inexcuſable, as the Iſland has been threatened for full three Years: They add, that they ſhould not be ſurpriſed if the Engliſh ſhould, with the ſame Eaſe, make themſelves Maſters of St. Domingo, and Louiſiana, and perhaps of the Havannah, the Spaniards not being better prepared than the French. Spain, it is further added, ought to have deferred her Declaration of War, or made it three Years ſooner, when France had a Marine, which cannot be repaired at preſent in the Space of a Year, notwithſtanding all the pitiful Alms given to it by the Cities and Corporations of the Kingdom. Nevertheleſs the Court had not left off ſtill to talk of a Deſcent on one of the Britiſh Iſles.------As they cannot ſatisfy the People of France, by telling them what they have done, it is neceſſary to ſay what they will do.

An Expreſs is ſaid to be received from Admiral Saunders and Sir Piercy Brett, with ſome Diſpatches, ſaid to be received with great Pleaſure.

The Gibraltar Frigate has taken, and carried into Leghorn, a large French Privateer, after a very ſmart Engagement, in which the Gibraltar had a Lieutenant and five Men killed.

We hear that our Marine Forces on the Coaſt of Portugal will be augmented to 12 Ships, which joined to theirs, will make a formidable Fleet.

May 6. It was reported Yeſterday, that in caſe the French ſend any Troops into Portugal, the King of Sardinia will aſſiſt the King of Portugal with 20,000 Men.

By all Accounts from Madrid it appears, that the warlike Preparations in Spain are in great Backwardneſs; that they have neither Officers for their Troops, nor Engineers for their Artillery. Their Invaſion of Portugal is by ſome ſuppoſed to cover a different Deſign. Be this as it may, it is certain, according to our beſt Accounts, that the French have reſumed their Project of an Invaſion into Great-Britain or Ireland.

His Majeſty's Sloop Druid carried out a Sett of Miners to Belleiſle, in order to blow up the Fortifications of that Place, which is not to be abandoned, but a ſufficient Force left aſhore and afloat to guard it as an Iſland convenient to water at, give Exerciſe to the Sailors occaſionally employed on that Coaſt, and Protection to our Ships.

According to the French Account of the Proceedings before the Caſtle of Arenſberg, the Fire kindled by the red hot Bullets thrown into the Place was ſo violent, that when the Hereditary Prince would have approached the Works, in order to offer Quarters to the Garriſon, the Flames burſt forth with ſo much Fury, that he was obliged to retire without an Anſwer, having had one Side of the Hair of his Head very much ſcorched, before he could get off.

We hear that on Thurſday next his Majeſty will go to the Houſe of Peers, to give his Aſſent to the Bills that are ready, and make a Speech from the Throne; after which, it is ſaid, both Houſes will be prorogued for the Summer.

It is ſaid that the Marquis of Granby will take Leave of his Majeſty To-morrow, in order to ſet out for Germany, to take upon him the Command of the Britiſh Forces there.

Deal, May 9. The George and Nancy, Kemp, from South-Carolina to London, is retaken by a Guernſey Privateer.

Arrived at the Orkneys, the Chance, Smith, from S. Carolina. At Liverpool, the Friendſhip, Caloe, from Boſton. At Newry, the Kingfiſher, Haynes, from New-York. At Crookhaven, the Adventure, Paddock, from Virginia.

Cork, April 26. About 30 of the Levellers have been examined before Godfrey Lill, and John Morriſon, Eſqrs. four of whom, who were committed on ſuſpicion only, have been admitted to Bail; the reſt were remanded to Priſon.

Laſt Monday Night, at 10 o'Clock, a Party of Lord Drogheda's light Horſe went out of Town on an Expedition; and Yeſterday Evening they returned, and brought in with them, and lodged in Goal, James Brown and Daniel Sullivan, two Prieſts, whom they apprehended in Conſequence of Information given againſt them.

We hear from Clonmell, that Yeſterday 11 Perſons were brought from Ardſinan, by a Party of Dragoons, charged with being Levellers, and lodged in the Goal of that Town.

Thurſday laſt one Stackpole, ſaid to be a Captain among the Levellers, and two others of inferior Rank, were brought to Town from Kilworth, under a ſtrong Guard, and lodged in the County Goal. Stackpole was taken ſome Days ſince at Kilworth, and having attempted to fire at the Officer who took him, received two Balls in the Thigh, which diſabled him from travelling otherwiſe than on a Car.

May 3. Yeſterday arrived at Cove, His Majeſty's Ship Aldborough, Capt. Graham, from a Cruize, and brought in with her the N. S. de Pieda Alaſtago Loocierna, a Spaniſh Privateer, which ſhe took about 20 Leagues South of Cape Clear, mounting 10 Carriage Guns, 16 Braſs Swivels, and 75 Men; who, a few Days ago, had taken the Brayton, Jakeys, of Whitehaven, from South-Carolina for Portſmouth, laden with Rice, which ſhe alſo retook and brought into Cove.

Tueſday laſt, ſeven Men and Women, apprehended on Information of being concerned in the preſent Inſurrection, were carried from the Neighbourhood of Ardſinan, and lodged in Clonmell Goal.---One Doyle, of Ardſinan, and one Sheehy, of Clogheen, two Popiſh Prieſts, guilty in the ſame traiterous Scheme, are fled from Juſtice.

DUBLIN, May 1.

Extract of a Letter from a Gentleman in Liſburn, in the County of Antrim, dated April 18, 1762.

"We are much concerned to hear of your Diſturbances in the South, and are not a little ſurpriſed here, that any People among you ſhould be ſo unaccountably infatuated and deluded by France (reduced to the low Ebb ſhe is at preſent) or yet by Spain, a much more impotent and inactive Nation, as to truſt to their perfidious Arts, raſhly to engage in an Attempt, which, in the End, muſt involve them in certain Ruin and Deſtruction. Have they forgot the memorable Year 1746, when France, to ſerve her own Purpoſes, by large Promiſes, firſt inſtigated the Highlanders to a Rebellion, and then, without giving, or intending to give them any real Aſſiſtance, left them in the Lurch, to ſuffer the juſt Puniſhment of their Folly and Madneſs? Can the deluded Wretches of your Country expect any better Treatment from them at this Time? But if, from any vain Hopes of Aſſiſtance from the Enemy, they ſhould ſtill continue to diſturb you, remind them, that when Thurot, two Years ago, landed at Carickfergus, in leſs than three Days Five Thouſand of the Proteſtant Militia of Down, Armagh, and Antrim, appeared in Arms, marched forward, and offered him Battle; and, by the remarkable Spirit and Reſolution they ſhewed, ſtopped his Progreſs, and ſaved the Town of Belfaſt, and Country adjacent, from being plundered. And your Diſturbers, Inſurgents, Rebels, or whatever Title they bear, may be aſſured we have, in theſe three Counties, 50,000 Men of the ſame Spirit, as well diſpoſed to chaſtiſe their Inſolence as their Fathers at Derry and Inniſkilling did formerly, whenever his Majeſty ſhall think proper to command them upon that Service. It is with infinite Pleaſure we are informed, that the ſame Spirit of Loyalty is dawning amongſt you; pardon the Expreſſion, for, from the Repreſentations we have had, the Inhabitants of Youghall alone have diſtinguiſhed themſelves upon the preſent Occaſion, which laudable Example will, we hope, rouſe greater Bodies to an Exertion of that Duty we all owe to our Country, and to our King. Let theſe Motives excite you to an Activity and Vigilance becoming the Sons of Freedom and Liberty, laying aſide all Supineneſs and Indifference: Power you cannot want, if it is not loſt by Loſs of Time; remember alſo that yours is the Cauſe of Virtue, oppoſed to Treaſon and Rapine.---I hope to hear from you the agreeable Account of an End to your Troubles, and am, &c."

May 8. Letters from Cork mention, that every Thing appeared there in the greateſt Tranquility; that the Price of all Sorts of Proviſions were greatly fallen; that the Proclamation made there for engaging the poor deluded People to return to their Duty, had been attended with very good Conſequences; Numbers of them having returned to their reſpective Habitations.

Extract of a Letter from a Perſon of Note in Cork, May 4.

"We are pretty quiet here at preſent, and our Apprehenſions are leſſened with Regard to the Levellers. It was a ſerious Affair, and had not the light Horſe exerted themſelves as they did, taken many, and terrified the reſt, I don't know to what Pitch they might have carried their Scheme by this Day, which now turns out to have been deeply laid."

WILLIAMSBURG, July 9.

Extract of a Letter from London, dated April 27, 1762.

"Captain Necks is arrived at Plymouth, after a very narrow Eſcape from a French Privateer. Capt. Gowland, who ſailed with him, was in Company, and was taken. Necks eſcaped under Favour of the Night. The Page is arrived, after being taken and ranſomed for 3000l. Gowland is taken, and the Privateer that took him brought in. Four or Five of the Carolina Ships are taken."

ANNAPOLIS, July 15.

Since our laſt, the Fleet for Virginia and Maryland, are all arrived ſafe. They left Portſmouth the 6th of May, and bring no material News later than what we had before. They were convoyed by the Goſport, of 40 Guns, Capt. Jarvis, whoſe extraordinary Care of his Charge, on that Paſſage, is mentioned by every Body, greatly to his Honour.

Tueſday Night laſt, a violent Attack was made on the Paper-Office, by ſome Perſon or Perſons in Want of Caſh: They broke away the Bricks in three or four Places, wrench'd the Iron Bars of ſeveral Windows, broke one, and got the Outſide Shutter to Pieces, and broke the Glaſs; but all their Attempts proved abortive, and they went off as poor Rogues as they came. Since which the Commiſſioners have ordered ſo much Strength to the Office, that no Body can now break into it, except they take away bodily either a Gable End or a Side of the Houſe.

Nottingham, on Patuxent, July 8, 1762.

"We had here laſt Night the ſevereſt Guſt of Thunder, Lightning, and Rain, that I have ever ſeen. It continued from 8 to 11 o'Clock, almoſt inceſſantly Lightning, with very frequent and hard Claps of Thunder. My Houſe was ſtruck by the Lightning about 9 o'Clock, when I experienced the moſt ſurprizing Delivery perhaps you have ever heard of. I was at that Inſtant ſitting writing at a Deſk and Book Caſe, which ſtood with its Back to the middle Wall or Partition of the Houſe, and its End cloſe to that Gable End of the Houſe which was ſtruck: The Folding Door of the Book-caſe was open, and that Leaf next the Gable leaned againſt the Wainſcotting cloſe by my Head: As I ſat writing on the Deſk Leaf, there is no deſcribing the Shock which I felt, when the Lightning ſtruck the Chimney, by the Side of which it deſcended, and ſeemed to get Vent at the very Place where I ſat, for it burſt in the Wainſcotting, which fell upon me with a dreadful Craſh. I was a little ſtunned, but preſently recovered, and got up from among the Rubbiſh unhurt, which fell upon the Deſk, and put out the Candle; and the Violence of the Shock, or the Burſting of the Wainſcotting, ſhattered the Book-caſe very much; and that Leaf of its Door, which was next the Gable, was entirely torn away. I found it behind me on the Floor all in Splinters. It alſo tore away the Outſide Planks or Weather Boarding, oppoſite to me, from Top to Bottom. When I got up, I felt a ſtrong ſulphureous Smell, which made me apprehend that the Lightning had ſet the Houſe on Fire; but was ſoon relieved from that Fear, and the ſulphureous Smell went off gradually."

BOSTON, July 15.

Laſt Lord's-day Morning, between Three and Four o'Clock, a Fire broke out in the Cabbin of a Sloop belonging to Mr. Vans, of this Town, commanded by Capt. Harlow, lying at a Wharf at the North End, which having communicated to about Half a Barrel of Powder before it was diſcovered, it blew up with a loud Noiſe, and immediately ſet all the After-Part of the Veſſel in Flames, almoſt the whole of which, with her under Side of the main Deck, and ſome of the Lading, were burnt; and as they were obliged to ſink the Veſſel before the Fire could be extinguiſhed, the reſt of the Cargo will be greatly damaged, ſhe being loaded and ready to ſail for the Weſt-Indies:----The Fire did alſo conſiderable Damage to the Wharf, and a large Parcel of Pine Boards that lay on it. 'Tis not known how the Fire happened.

NEWFOUNDLAND Intelligence.

Extract of a Letter from Halifax, July 1.

"This Day arrived here his Majeſty's Ship Syren, of 20 Guns, commanded by Capt. Douglaſs, in 8 Days from Newfoundland, who brought Advice, that a Fiſhing Schooner arrived at Fiſh-Holt, in Newfoundland, before ſhe ſailed, who gave Intelligence, that about the 19th of June the ſaid Schooner was chaſed by ſix Ships, who fired one Shot at him, on which he brought to; that they then ordered him to come under their Stern, which he did; that a Fog coming on, he hoiſted his Sails and eſcaped; and that he believed them to be five Spaniſh Men of War of the Line, and a Frigate; that they fired above 100 Shot at his Veſſel, when he came to make Sail: On which he went to Fiſh-Holt, where he gave a Depoſition, which was forwarded to the Captain of the Syren, who immediately proceeded to this Place, to give Information of it to Lord Colvill."

Yeſterday arrived here the Schooner Hope, Edmond Freeman, Maſter, in about 17 Days from Quebec: The Captain informs us, That on the 15th of July he ſaw 5 Sail of Ships off Cape Roſier, bound up to Quebec, ſuppoſed to be Merchantmen from England: That on the 9th of the ſame Month he ſpoke with a Brigantine belonging to this Place, William Cochran, Maſter, who informed him, they had been 5 Days from Newfoundland, and were bound for Halifax, being then about 12 Leagues S. E. from that Place; there were a conſiderable Number of People on board the Brig, who informed him, that two Sail of Line of Battle Ships, and three Frigates, both French and Spaniſh, had taken the Bay of Bulls, Ferriland, and St. John's, in Newfoundland: Capt. Freeman alſo ſpoke with a Schooner the Day before, who had likewiſe given him the ſame Account. The Wind blew very high when our Informant ſpoke with the Brig, and is not certain whether it was ſaid they were 5 or 9 Days from Newfoundland.

July 19. On Monday the 5th of this Inſtant, about Two o Clock in the Afternoon, a terrible and deſtructive Fire broke out in the Town of Scarborough, in the ſecond Pariſh called Dunſton, in the County of York, at the Eaſtern Parts of this Government. The Fire began about three Miles above the Meeting-houſe, N.W. the Wind being N. blew exceſſive hard; the Flames extended before the Wind with rapid Force about ſix Miles in Length, and about one Mile wide, which deſtroyed every Thing before it, and ſeemed like the laſt Conflagration. There were ſix Houſes, ſeven Barns, and three Mills burnt. Several Perſons of good Eſtates are almoſt ruined; the greateſt Sufferers are Capt. John Fabyan, and his Brother Joſeph Fabyan. They have loſt at leaſt 500 l. Sterling. Mr. Ebenezer Sevey's Farm is all laid waſte. Daniel Merrik ſaved his Building, but loſt all his Cattle and Sheep. Several Families are deſtitute of either Houſe, or any Thing to ſupport Nature, two Widows in particular. The leaſt Computation in the whole Loſs muſt be about 3000 l. Sterling. This Deſtruction was in the Space of two Hours, notwithſtanding the ſpeedy Aſſiſtance of Two Hundred People. Abundance of Corn, Graſs, and ſeveral Orchards, are entirely deſtroyed by the ſame.

On Friday laſt arrived here the Schooner Dolphin, Capt. Silas Atkins, in 17 Days from Newfoundland, and hath made the following Declaration, viz. That he left the Harbour de Grace in Newfoundland, the 27th of laſt Month, and that before he ſailed from that Place, Advice came that there were about 3000 French Troops landed on the 24th at the Bay of Bulls, who marched in two Days to St. John's, and laid Siege to it, and that it was ſuppoſed it would be taken, but that a great Firing had been heard there that Day: The French Force in the Bay of Bulls conſiſts of 3 Ships of about 70 Guns, one Frigate of 40, and a Bomb: That there were out at Sea, off the Bay of Bulls, 5 more Ships of the Enemy, ſome of which were of 70 Guns, but how many they could not ſay: That the French General had publiſhed a Manifeſto, a Copy of which he had procured and compared with the Original: That many Boats came into the Harbour of Grace with Inhabitants, many of which he knew, and had brought about 20 with him: That he believes many had returned to their Habitations, in Conſequence of the French General's Manifeſto: That they ſeemed diſpoſed to preſerve the Place, and keep it: And that he could not learn they had done any Miſchief upon the Banks.

The next Day arrived here Capt. Philips, in 19 Days from Trinity Bay, in Newfoundland, and informs, that a Shallop came in there, which had eſcaped from the Harbour of John's, and brought Advice, that that Place certainly ſurrendered to the French Troops, ſaid to be about 1500, on Sunday the 27th Day of June, at Noon, having made little or no Oppoſition; firing, it was ſaid, only one Gun, though a Place of conſiderable Strength, having upwards of 60 Cannon mounted, but were poorly garriſoned:---That the Gramont Frigate, with a Number of the Fleet which lately arrived from England, were in the Harbour of St. John's, and muſt have fallen into the Hands of the Enemy, as none of the Veſſels were ſuffered to leave that Place after that Advice came of the French being in the Bay of Bulls----And that it was the general Opinion there, that it was the Enemy's Fleet from the Weſt-Indies, as the Ships appeared to be very foul.

The ſame Day another Veſſel arrived from Harbour Grace, and brought ſeveral Families, with their Effects.

The following is an exact Copy of the MANIFESTO publiſhed by the French General.

"WE Count De Hoſſon Ville, French General, do declare to all the Inhabitants of the Iſland of Newfoundland, That the French Grenadiers landed on the ſaid Iſland, ſhall not do them any Harm, but ſhall protect them, if they do not take up Arms, if they give neceſſary Succours; we bound them expreſly as well of thoſe Juſtices of the Peace and principal Planters, do not leave their Houſes or Settlements, neither to defend themſelves; if they do any Thing againſt the ſaid Declaration, they ſhall be treated according to the Laws of War.

Saturday, June 26, 1762.

(Signed) Le Compte De Hoſſon Ville."

We hear that upon Advice being received at St. John's of the Enemy's Ships being at the Bay of Bulls, one or two Veſſels were immediately diſpatched from thence to England, with an Account of it.

On receiving theſe Advices, His Majeſty's Council were immediately called together, and ſeveral Expreſſes diſpatched; and two Veſſels were hired by the Government, to proceed immediately to Admiral Pocock, in the Weſt-Indies.

NEW-YORK, July 22.

Tueſday laſt an Expreſs arrived here from Boſton, with a Confirmation of the Advices mentioned under the Boſton Head, in Relation to the Enemy's attacking ſome Places at Newfoundland: And 'tis further ſaid, there are three Ships of the Line, and two Frigates, who immediately cauſed a Manifeſto to be ſpread over the Country, informing the Inhabitants, that if they would come in, and ſwear Allegiance to the French King, they ſhould remain unmoleſted, otherwiſe they ſhould have their Places and Subſtance deſtroyed; but as the Accounts are in general imperfect, we can ſay little; but are aſſured, in Conſequence of this News, the Halifax Packet, Capt. Boulderſon, was ordered to ſail directly for Falmouth, and ſhe is already under Sail for that Purpoſe.

Monday laſt his Majeſty's Ship Goſport, Captain Jarvis, of 44 Guns, arrived at Sandy Hook, from England, laſt from Virginia, whither ſhe had been as Convoy to the Virginia Fleet. She has brought over about 150,000 Pounds Sterling, ſaid to be chiefly for the Army's Pay; which Money was the next Day landed in this City, and Yeſterday the Goſport ſailed again, ſaid to be in Purſuance of ſome Orders ſhe received ſince the Arrival of the above-mentioned Expreſs, from Boſton.

There is a Report that the General Wall Packet-Boat is taken and ranſomed in her homeward bound Paſſage.

We hear that about a Month ago, 14 Merchantmen, under Convoy of a Letter of Marque Ship of 20 Guns, failed from Cape-Francois for Old-France.

July 26. When Capt. Jarvis left England, which was the 6th of May, they were in daily Expectation of a Visit from their French Neighbours at Dunkirk; for which Purpose, it was said, they had collected a vast Number of Flat-bottomed Boats, and about 30 or 40,000 Men; that Commodore Moore had proposed a Scheme for entering the Harbour of Dunkirk, and destroying every Ship and Vessel there; that 30 English Frigates, and 20 Ships of the Line, were daily cruizing off that Place; that his Majesty had given Admiral Hawke a special Commission, whereby he was impowered to dispose of all the Ships in the different Harbours of England as he pleased; that Admiral Anson was dying at Bath; that the Duke of York had hoisted his Flag on board his Majesty's Ship the Blenheim, and that Lord Howe was to accompany the Duke (in case he went to Sea) in said Ship; that Advice was received in England that four French Men of War had got out of some Port of France, and were destined for America, and that 6 English Men of War were immediately sent in Pursuit of them; and that his Royal Highness the Duke of Cumberland had offered his Service, to command all the Troops in England. [We leave our Readers to judge whether the above-mentioned French Ships are not those that have taken Newfoundland.]

Thursday Evening last the Ship Jenny, Capt. Jarrold, and Ship Betsey, Capt. Waite, arrived here from Cork, in 60 Days, loaded with 2700 Barrels of Pork, and 1000 Firkins of Butter, &c. for the Use of his Majesty's Troops on this Continent: They sailed from Cork the 23d of May, in Company with 19 other Ships, all loaded with Provisions for Quebec, under Convoy of his Majesty's Ship the Aldborough, of 20 Guns, Capt. Graham, and the Tamar Sloop of War of 16; from the latter they parted 130 Leagues off the Coast of Ireland; and from the whole Fleet, with the Aldborough, the 13th of June, in Lat. 44, Lon. 33, 15, all well.

Friday Evening last the Sloop Henry, Robert Craig, Master, arrived here in 26 Days from Jamaica: The 10th Instant he came past the Havannah, at about two Leagues Distance, and the same Day spoke with a small Privateer called the Black River, Capt. Miller, who informed him, that the English Army had then been above three Weeks landed at the Havannah, and had kept a most incessant Fire most of that Time against the Moore Castle, in which he said they had made some Breaches, and that the Spaniards continued to make a very gallant Defence.----Next Day Capt. Craig fell in with Capt. Stewart, in another Privateer, who confirmed the Account given by Capt. Miller.

The 7th of July Capt. Craig met with the Jamaica Fleet, consisting of 160 Sail, bound for England, under Convoy of Sir James Douglass, and left them steering N. N. E.

Saturday last the Ship King of Prussia, Capt. M'Glathery, arrived here from Liverpool, in 8 Weeks; but he came away in such a Hurry, that he has not brought one public Print with him, neither is there any come in the Ship.---Captain Johnston, in a Ship for Philadelphia, sailed a Day before him.

Since our last, the Privateer Brig General Monckton, Captain Sinnot, and Schooner Flying-Harlequin, Capt. Wright, sailed on a Cruize against his Majesty's Enemies.

Extract of a Letter from Quebec, dated June 29, 1762.

Gosport, Sandy-Hook, July 20, 1762.

HIS Majesty's Ship GOSPORT will sail from York, in Virginia, the Twentieth Day of September next, for England, Convoy to such homeward-bound Trade as may be assembled there at that Time. J. JERVIS, Captain.

By Captain Philipson, in the Ship Royal Ann, from Guadaloupe, we are informed, that the Enemy's Privateers are very thick about that Island and Martinico: That Capt. L'Estach, in a French Privateer, had cut out of the Harbour of Petit Plain the Sloop Resolution, Capt. Patterson, bound to this Port: That the People on board the Privateer said, they had taken two Brigs belonging to Philadelphia: And that said L'Estach had also taken, about that Island, near Twenty Sail of Vessels, large and small; one of which the Government Sloop, with Soldiers, going to shift the Garrison.

Captain Philipson was chased off the Capes of Virginia by a Sloop, which he took to be a Privateer; and spoke a Vessel from Virginia, by which he learnt, that there were a Privateer Sloop, and Schooner on the Coast, which had taken a Snow from Virginia, and ransomed her.

On Saturday last one of our Pilot Boats came up, with the disagreeable News of a Privateer being on the Coast. And on Thursday Morning, as Captain Magnus Miller, in the Brig Lovely Lass, bound to Barbados, went out of the Capes, he was attacked by a Sloop, who gave him her Broadside; upon which he immediately hauled his Wind, and fired his Stern Chace Guns, the Privateer pursuing, and firing her Bow Chace, and continued in that Manner as long as they could be seen; but, as it was thought the Lovely Lass gained on the Privateer, we are in Hopes she has got clear.

Captain File, in a Brig belonging to Poole, is arrived here. She was bound to London from Antigua, and sailed the 6th of June from St. Christophers with the Fleet, but was soon after taken by a Spanish Privateer, and retaken by Captain Scull, in a St. Christophers Privateer, and the Diana, of Rhode-Island.

Captain Tillage for Jamaica, and Captain Sutherland for Barbados, both from Virginia, are taken.

Yesterday arrived here Captain Simonton from Jamaica, but last from the Havannah, in thirteen Days, by whom we are informed, That our Army had been then landed about a Month; did not lose one Man in Landing; had been a little sickly, owing to the wet Weather they had when they went ashore; but that they were well recovered, and in high Spirits: That they took two of the Enemy's Batteries, before they began to play upon the Moore Castle, which they did with three Batteries, and on the 15th Inst. opened a Fourth, of Eight Guns, within 100 Yards of the Castle; from all which they fired incessantly, Night and Day, by which several Breaches were made, and it was almost tore to Pieces: That the Spaniards had made a Sally, and were repulsed with Loss: That the General had some Thoughts of storming the Place, but set that Design aside, on learning that the Enemy had laid some Mines, in order to blow up our People: That the Pipes, which conveyed the Water into the Moore Castle, had been effectually destroyed by our Men, which greatly distressed the Enemy; but that, in [illegible] had found Means to poison the Water with which the English Army was supplied; so that they were obliged to go four or five Miles from the Havannah for it: That three of our Ships of the Line, the Cambridge, of Eighty, and two others, of Seventy Guns each, were ordered to batter the Moore Castle, which they did for five Hours, damaged it greatly, and dismounted a Number of its Guns; but the Captain of the Cambridge, and 100 of her Men being killed, and about 50 of the other two Ships Companies, the Admiral ordered them off: That the English employed a Number of their best Marksmen, in order to pick off the Enemy, as they came out to load their Guns, by which they killed a great many, and had themselves received but very little Loss: That the Moore Castle was so surrounded by the English, that its Communication with the Town was quite cut off, and no Person could go in or out of it: That our Fleet had taken a Spanish Frigate; and also a Ship from Cadiz, loaded with Warlike Stores of all Sorts: That the Fleet from New-York was not arrived, but looked for every Hour: And that the Jamaica Fleet, under Commodore Douglas's Convoy, was at the Havannah, and ordered, by Admiral Pocock, to remain there for eight Days.--------Captain Simonton was on board the Cignet Frigate of War for some Hours, where he received this Intelligence; and was further told, that the Moore Castle was in such a shattered Condition, that it could not hold out above four or five Days after he left the Havannah.

RIVINGTON and BROWN,

Bookſellers and Stationers, the corner of Front and Market-ſtreets, have juſt imported in the laſt veſſels from London,

THE London Magazine, compleſe for the year 1761, bound up in a volume, adorned with 19 very elegant cuts, particularly a map of the iſles of Montreal, a plan of the ſtraits of Michilimackinack, a new map of the river Miſſiſippi, a plan of New Orleans, the capital of Louiſiana, a proſpect of the cities of New-York and Philadelphia, and a map of Virginia; a plan of the battle of Fillinghauſen, where Prince Ferdinand defeated the Marſhals Broglio and Soubiſe; a picture of Queen Charlotte, an accurate map of Spain and Portugal, abundance of new ſongs ſet to muſic for the German flute, quite new, &c. &c. This entertaining and inſtructive work makes the reader acquainted with all the tranſactions at home and abroad, in the courſe of the Year 1761. An hiſtory of events is regularly given, from which he may judge of the ſituation of England and her provinces, compared with other nations; alſo the progreſs of the moſt glorious war that ever ſhe was engaged in. Extracts from new books, and all the new political pamphlets of any reputation, many elegant pieces of poetry, liſts of marriages and deaths, promotions civil, military, and eccleſiaſtic: In ſhort, this work is neceſſary to every one who would be acquainted with the Great World.

The King of Pruſſia's celebrated Body of Law, founded on reaſon. An entire new work, greatly admired, particularly by all gentlemen of the law.

Letters to a young Nobleman, on the following uſeful and entertaining ſubjects, ſtudy in general, the ſtudy of hiſtory, biography, taſte, the influence of liberty upon taſte, the age of Auguſtus, and that of Louis 14th. Theſe ſubjects are treated with perſpicuity and judgment: Through the whole performance is diſcovered an enlarged and liberal turn of thought, and the author writes like a ſcholar and a gentleman.

The natural hiſtory of the horſe, aſs, bull, cow, ox, ſheep, goat and ſwine, and full directions for breeding, chuſing, feeding, fattening and improving thoſe creatures.

The hiſtory of the life and death of John Perrot, a laceman in London, who was lately hanged for defrauding his creditors of ſeveral Thouſand Pounds, with an account of his gallantries.

The hiſtory of the famous John Sobieſki, King of Poland, a very ſpirited and ſenſible work, and full of heroiſm.

The pleaſing Hiſtory, a Chineſe novel. It has, as uſual, love for its foundation, and oppoſition and difficulty for the ſuperſtructure: One cannot read the book without fancying one's ſelf all the while in another world, and converſing with a ſett of people of a different caſt from all other mortals. The characters, the cuſtoms, the manners of the people, their laws, government, arts, police,----every thing has an appearance ſo new and ſo peculiar in a book of entertainment, that altogether it looks like Fairyland, with the hiſtory of Old Oberon, and Queen Mab.

A new hiſtory of Oliver Cromwell, never publiſhed before, and written by Mr. Harris.

The Adventures of a Guinea, a ſatirical ſpirited novel, in which are delineated the characters of all the principal perſons in Great-Britain, Ireland and America: As the reader is perplexed in the courſe of this work, for want of explanations of the characters, a key to them will be given with the book. In this new edition ſeveral characters are added, that were not in the former.

The American Gazetteer, containing a diſtinct account of all North and South-America, for the ſake of which we have kept the ſword unſheathed ſix years paſt, ſacrificed thouſands of brave ſoldiers and ſeamen, and expended millions of treaſure. The work deſcribes the ſituation, climate, ſoil, produce, former and preſent condition; commodities, manufactures, and commerce. The cities, towns, ports, bays, rivers, lakes, mountains and fortifications: The whole exhibits the preſent ſtate of things; and the views and intereſts of the ſeveral powers who have poſſeſſions in America, and is illuſtrated with a new ſett of excellent maps of the ſeveral provinces, as well as of the Weſt-Indies and South-America.

A new Syſtem of Geography, in which is given a general account of the ſituation and limits, the manners, hiſtory and conſtitution of the ſeveral kingdoms and ſtates in the known world, their cities, forts, ſeaports, produce, manufactures and commerce, by M. Buſhing, Profeſſor of Geography. It is ſufficient to ſay of this work, that Mr. Buſhing has exceeded all former geographers in a curacy, minuteneſs, and in every other particular. The maps taken from authentic ſurveys, conſiſting of ſix and thirty in number, which form an exceeding valuable atlas.

The Merchant's Lawyer, containing the ſtatutes and caſes determined relative to bills of exchange, promiſſary notes, inſurances; the law of owners and maſters of ſhips, principals and factors, with a complete book of rates, containing good ſtore of uſeful matter.
